SCHENECTADY BOY IS STILL MISSING AFTER WIDE HUNT

Two Wireless Outfits
Used Throughout the
Night by Father, Who
Is Wireless Official.

CLUES ARE SCARCE

Schenectady, N. Y., May 2.—Two wireless outfits were called ceaselessly the night for news of six-year-old Alexander, kidnaped by a mob of hoodlums. The chief engineer of the outfit, who is a wireless official, said that he had not been able to find any clues. He said that he had been searching for the boy since he was kidnapped on Monday afternoon to "get some rabbits."

Schenectady, N. Y., May 2.—Detective Sergeant Van Deusen left Police headquarters today on a mysterious mission to a town on the Canadian border, following a tip that a child answering the description of kidnapped Verner Alexanderson had been seen there. Police officials were extremely reticent and the exact destination could not be learned.

KIDNAPED

Verner Alexanderson, six, of Schenectady, N. Y., who was kidnapped by a man who lured him away with a white rabbit. His father, E. F. W. Alexanderson, chief engineer of the Radio Corporation of America, has started a nation-wide search for the boy through the agency of the wireless.

Canada Hangs First Woman Murderess In Twenty Four Years

Fort Saskatchewan, May 2.—Florence Lasandra was hanged today for the murder of a policeman. The first woman to be thus executed in Canada in 24 years, Mrs. Lasandra met death on the scaffold half an hour after Arthur Pearson was hanged for his part in the same murder.

BEINARD GILL MADE POLICE HEAD AT COALPORT

Bernard F. Gill, who served as assistant policeman or night officer at Philadelphia for a long time and who was elected chief of police of Coalport, Pa., is expected to assume his new duties within the week.

THE STATE POLICE OF NEW JERSEY NEEDED TO PROTECT PILLAR OF FIRE MEMBERS

Boundbrook, N. J., May 2.—State Troopers early today rescued one hundred members of the Pillar of Fire from a mob of thousands which surrounded the order's church at the breaking up of a mass meeting. Alleged Klan activities and remarks by a speaker at the meeting favoring the KuKlux Klan precipitated the outbreak.

Two members of the Pillar of Fire were taken prisoners by Boundbrook citizens following a free-for-all fight in the church, after which a large crowd surrounded and stoned the building and destroyed automobiles belonging to the order. The mob then talked loudly of lynching.

The State Troopers prevented injury to the two Holy Rollers taken prisoners and finally dispersed the crowd. A leader of the Holy Rollers, who attempted to address the mob from a second story window, was struck in the forehead with a stone and rendered unconscious.

15 MILLION DOLLARS FOR ELECTRIFYING OF VIRGINIA RAILROAD

Pittsburgh, Pa., May 2, 1923.—The importance of the \$15,000,000 order received by the Westinghouse Electric & Manufacturing Company of Pittsburgh from the Virginian Railway for electrification of 215 miles of track between Roanoke, Va., and Mullins, W. Va., cannot be overestimated. It is the largest railroad electrification contract ever placed. In addition to what this means in itself in business, it has vast significance as assuring other contracts in the growing demand for the electrification of railroads. It is impressive, with the Virginian Railway calling for power to move heavier and heavier trains, that steam haulage is giving way to electric.

BELL COMPANY WILL SELL ITS STOCK AT ALL LOCAL OFFICES

Bell Telephone System stock may be purchased at any business office of the company, according to an announcement by local Manager Peck today. Purchases may be made for cash or on the installment plan. This plan is put in effect through the Bell Telephone Securities Co., a part of the Bell System. When an order is placed at the local office, the stock is purchased on the New York stock exchange by the Securities Company. The price quoted each day is the previous day's closing on the Exchange.

During the past year efforts have been made to widen the distribution of Bell System stock through local banks and brokers. The new plan is supplementary to the previous efforts and places the stock within the reach of many who may desire to purchase it, but who have no local connections through which the purchase may be financed. The Securities Company is not financing this plan on a profit making basis, but is carrying out the ideal of the Bell System "Every Subscriber a Stockholder."

The Administration Code Is Finally Reported Out Of Committee

Harrisburg, Pa., May 2.—The Administration Code, with the amendments made by the Finance Committee, was reported out by Senator Baldwin, Chairman of the Committee, when the Senate met today. The Senate passed unanimously Senator Mansfield's bill for a Daylight Savings referendum so as to determine the question of summertime for the entire state according to the wishes of the people.

BETTS BILL WOULD OUTLAW PUTTING ICE IN DRINKS

Harrisburg, May 1.—Pink lemonade of the circus brand, laded out of huge tubs with a hunk of ice in the middle, is doomed under the Betts Senate bill, which leading state bottlers advocated at a hearing before the Senate health and sanitation committee. Under the provisions of the bill, ice cannot be put in soft drinks sold from bulk to keep them cool and vendors selling pink lemonade or other soft beverages containing artificial coloring matter must say so on a conspicuous label.

James Foust, state food commissioner, said it was the first time in his knowledge an industry had come asking the state to regulate manufacturing of its products. The bill provided all bottled soft drinks must be labeled as to contents and provides stringent regulations for re-cleaning beverage containers.

Committee Favorably Reports Three Million For The State College

Harrisburg, Pa., May 2.—The House Appropriations Committee today reported out an Appropriation Bill, granting State aid to the Universities of the State. State College was given \$2,993,914; University of Pittsburgh \$2,000,000; University of Pennsylvania \$1,641,812; and Temple University \$500,000. The first three of these were the amounts recommended by the State Council of Education and were considerably higher than budget figures. The committee also reported out \$755,900 for mother's assistance fund.

HOUSE NOW HAS GAS TAX ONLY BEFORE IT FOR PASSAGE

Harrisburg, Pa., May 2.—The question of new taxation was thrust back today to the same position it had held weeks ago. The only tax bill still on the House calendar was the one imposing an additional cent on gasoline, which had yet to be called for second reading. All other taxes were re-committed to the ways and means committee for further consideration, amendment and possibly hearings.

REMAINS CAN BE VIEWED AT CHURCH FROM 12 TO 2

The funeral of the late Grandma Boyce will be held at the West Side Methodist church tomorrow afternoon at two o'clock. The body will be removed to the church at twelve o'clock noon where friends of the deceased are invited to pay their last respects.

A. Kranitz, of DuBois; Calvin Amon, of Shawville; G. M. Passmore, Grampian; Ralph Hess, of Curwensville; J. A. Dutra of Ladose; and Mr. and Mrs. J. M. McKinley, of Curwensville, were among the out-of-town visitors yesterday.

\$250,000 FUND FOR ENFORCEMENT PUT BACK INTO BILL

Agreement Made With
Governor that Quarter
Million Is to Be Used
Helping Prosecutors.

VOTE WAS 30 TO 15

Harrisburg, Pa., May 2.—The House appropriations committee today restored to the general appropriation bill the \$250,000 for law enforcement demanded by Governor Pinchot by a committee vote of 30 to 15.

The acquiescence to the Governor's desire was preceded, however, by a further compromise reached by the Governor and the sub-committee early today by which Pinchot agreed that the money would be used "in cooperation with the district attorneys of several counties."

This amendment, in addition to the one granted to the Governor last night, was inserted and the item restored to the bill. Harmony was believed secured by this moving out of the last series of differences between the House and the administration on the general appropriation bill and the measure was expected to pass the House without further ado.

INDUSTRIAL GROUP WILL SUPPORT ARMY, COUNTY ORGANIZED

That the coal miners of the county are solidly going to back the Salvation Army is already proven.

Yesterday the officers of the Army were visiting the mines and found not only the officials but the miners were arranging to individually contribute their share in order that this organization shall have their building.

The workers in the brick yards and tile plants are also enthusiastically lining up to contribute and in one plant it was estimated probably 400 workers will do their mite that this appeal shall be a success.

The silk mills employees are being enthused and also the big printing plant operated by the Chas. T. Kurtz corporation.

The employees of the Elk Tanning Company also are arranging for a 100% subscription.

Senator W. I. Betts, the chairman for the county organization of the Salvation Army Appeal announces the chairman for the following communities, all of whom have accepted their quotas and consented to furnish leadership in their respective townships.

Glen Richey, Mrs. W. O. Batchelor; Olanza, Mr. H. A. Cathert.

Oshanter, Mr. and Mrs. George L. Ammerman.

Mineral Springs and Woodland, Mrs. J. J. Learish.

The County Committee are out endeavoring to cover all parts of the county seeking for chairmen to cooperate in obtaining the quotas set by the Advisory Boards for them to obtain.

Pittsburgh Carmen Vote 2,177 To Nine Against Taking 10 P. C. Increase

Pittsburgh, Pa., May 2.—Employees of the Pittsburgh Railways Company today wholeheartedly rejected by a vote of 2,177 to 9 a 10 per cent increase offered by the receivers.

The men demanded 20 cents an hour raise. The old wage scale expired midnight Monday and every effort will be made, it was said by representatives of the Trade Union and the receivers to prevent a strike.

DOMESTIC SNARL AGAIN SERVES TO FOCUS ATTENTION ON DISAPPEARANCE OF CALDWELL BOY APRIL EIGHTH, 1917

On Tuesday afternoon April 8, 1917, Arthur, the little 9-year-old son of Mr. and Mrs. Chester Caldwell, who live on a farm near Rockton, was sent into the nearby woods by his father in search of the cows as a severe storm was approaching, and despite the fact that almost every foot of ground for miles around the place where he was last seen has been carefully and systematically searched, no trace of the unfortunate lad has ever been found.

The Caldwell family has served to renew the interest in the little boy's disappearance six years ago and a careful search of the vicinity is again being officially made, with the hope of finding some clue that would help to finally solve the affair.

To refresh the memory of our readers we publish the following story of the strange affair as it appeared in the DuBois Courier at the time:

"The young lad disappeared on Tuesday, April 8th, about three o'clock in the afternoon. He had been sent by his father to get the cows, as a storm was threatening. The boy went into the woods that were nearby and that was the last seen of him. When darkness came and the boy did not return, the father started out in search of him. He failed to find any trace, and immediately organized a searching party. The searchers put in the entire night going through the adjacent woods but they were equally unsuccessful. Word was then sent to this city for help. The fire whistle was blown and a special train made up on the B. & P. by which hundreds of searchers were taken to the scene. The entire day was devoted to the search by a large squad of men from this city, but no trace of the lad was discovered. Gradually the news got over the neighborhood and for one solid week hundreds of men were out every day in the search for the missing boy. On the Sunday following the disappearance searching parties started from Penfield, from Clearfield and from Curwensville, while hundreds went from DuBois. Every available foot of mountainous land was gone over thickets were beaten through, creeks searched and piles of rocks explored, but not a single clue was ever found that would lead to the recovery of the body of the boy, who by this time was given up as dead. But even then the search was not given up. The water was out to Rockton a week after the lad disappeared and he found a group of men out, including the father of the boy and his uncle. The search for the body was continued during the following summer months, but no trace was ever found. It was believed that perhaps when the deer season opened the following fall that a hunter would run across the remains, but this belief also proved without foundation. As a result the search for the boy was given up, and it was named down as one of the most mysterious occurrences that ever happened in this neighborhood."

To this end several people in the Rockton country have never ceased to visit the locality of the boy's disappearance when conditions were right for a search and have carefully gone over the ground again and again. It is said that the efforts of some of these people have resulted in the discovery of what apparently was a

Germany Makes Her First Actual Offer Of Peace To Allies

Berlin, May 2.—Germany made her first actual offer for solution of the Ruhr difficulties in a note to be dispatched to the Allies today.

Under her proposal, announced officially here, Germany would pay a base sum of thirty billion gold marks reparation due the Allies under the Treaty of Versailles.

If France accepts, Germany would expect evacuation of the Ruhr following a resumption of the previous system of payment.

The German note, a copy of which also will be dispatched to Washington, agrees if this proposal is unacceptable an International Commission, such as suggested by Secretary of State Hughes, could be empowered to determine how much Germany is capable of paying.

Paris, May 2.—The German offer, announced officially today, is unacceptable to France, according to first impressions gathered from semi-official sources.

The amount, thirty million gold marks, the clause regarding the evacuation of the Ruhr and proposal for an International Commission, as suggested by Secretary of State Hughes, was said to be unacceptable from the French point of view.

small grave. The "grave" or hole in the ground was just long enough to accommodate a body the size the child's would have been at that time and was about three feet deep, while the ground in same was loose as though it had been removed and refilled after first being filled in, and it is the thought of those making the find that the body of the child might have occupied the grave at one time and had since been removed. At any rate the recent outbreak in the Caldwell family has served to renew the interest in the little boy's disappearance six years ago and a careful search of the vicinity is again being officially made, with the hope of finding some clue that would help to finally solve the affair.

To refresh the memory of our readers we publish the following story of the strange affair as it appeared in the DuBois Courier at the time:

"The young lad disappeared on Tuesday, April 8th, about three o'clock in the afternoon. He had been sent by his father to get the cows, as a storm was threatening. The boy went into the woods that were nearby and that was the last seen of him. When darkness came and the boy did not return, the father started out in search of him. To this end several people in the Rockton country have never ceased to visit the locality of the boy's disappearance when conditions were right for a search and have carefully gone over the ground again and again. It is said that the efforts of some of these people have resulted in the discovery of what apparently was a

ONLY MINOR CASES OCCUPY ATTENTION OF CIVIL COURT

Up to this morning two cases had been disposed of at the first week of May term civil court, now in session with Judge Bell presiding and a list of 23 cases scheduled for trial.

The first case called was that of Levy & Co. of Philadelphia against H. Bender, of Coalport. Hon. W. J. Swoope represented the plaintiff and Miller & Hartwick appeared for the defendant. The jury returned a verdict in favor of the plaintiff in the sum of \$171.27.

Case No. 2 was that of Zack M. vs. Emma Parrish, administrator of the estate of the late John Reamer of Union township. Pentz & Pentz represented Marsh, while Chase & Chase were attorneys for the defense. In this case suit was brought to recover \$100 which Marsh claimed he loaned the old man at the railroad station in Falls Creek on Dec. 15, 1915. The plaintiff, though a shrewd and successful business man, is unable to read or write, but had a friend enter the transaction in a passbook at the time, which friend and book were offered in evidence. The jury found from the evidence the loan had been made and directed repayment of the amount.

The case of Earl Gulich vs. Doris

BOYS' PARADE WAS A GREAT SUCCESS HERE LAST NIGHT

Today Is the Day for
Boy In the Home; To-
morrow Night He'll
Enjoy Big Show.

BOYS ARE PLEASED

The local boys' week program is far has convinced Clearfield that they are not only a vital part of our community, but that our people generally take a great interest in their welfare, even though it remained for the Rotary Club to bring that fact home to them in no mistaken manner.

The response to the Rotary Club's invitation to parade and thus demonstrate to all just how many red-blooded young Americans are to be found in our community was most generous and highly pleasing, as more than six hundred boys met at their different schools at 7 o'clock and then marched to the general rendezvous at the High School building where the parade was formed under the practiced eye of Reuben Newlin, former Field Marshal of Gull Township, who was Grand Marshal, while A. M. Pearce and M. M. Orsini acted as chief aids, with almost the entire Club membership assisting on the side.

By a little "inside strategy" the line of parade was changed at the last minute to avoid possible mishap at the Salvation Army barracks, the happy-go-lucky throng wound up Front to Walnut, across to Second, down Second to Reed, thence to Third, up Third to Market and back to the starting point.

The American Legion Band led the parade and every street was filled with people almost the entire route of the parade. Following the banding of the marchers the boys gave very fine concerts at the school house and later in front of the Clearfield Trust building.

The kids were tickled to death with "their show" while the Rotarians were also highly pleased with the turnout and occasion.

The Program For Tonight

The program for tonight has to do with boys' day in the home. All parents are urged to provide some program at home for the boys, and if you do not have a boy of your own adopt one for the occasion. There should not be a homeless boy in Clearfield who does not enjoy the pleasure of a comfortable home for at least the coming of May 2nd.

Big Time Thursday Evening

Thursday night will be the "big night" of the week. The program calls for a vaudeville and radio program at the High School auditorium for the boys. Every boy in Clearfield is invited to be present and nobody but boys will be allowed in the auditorium.

Chairman Lex Browne and his

(Continued On Page Two.)

Rotary Committee For The Ensuing Year Will Be Announced Tomorrow

A feature of the Rotary Club meeting for tonight is a program that can come only once a year will be the naming of the eleven standing committees for the coming year. The places are all filled and an announcement of the men and the work they will do this year will be made by President G. Albert Stewart as soon as the meeting is convened. Guests of the club tomorrow evening will be the entertainers who have so kindly consented to lend their talent in the entertainment to be given the boys at the High School at eight o'clock. Two men well versed on local affairs in Clearfield county will be present to give five minute talks. One will speak on the present and the other on the future.

At 5:30 o'clock the new board of directors will meet to transact new business for presentation to the club. The regular meeting will be promptly at 7:15 o'clock.

Tom Sims SAYS---

Lots of people think the world owes them two or three livings. They're wrong. The latest boy wonder is "How to be a man." A young lady says that crying for a man isn't half as quick as smiling for a man.

The biggest sin doesn't always get away. Sometimes he goes home and says they wouldn't bite.

One nice thing about radio in warm weather is you can put the radio up and go walking.

The political pot is boiling. It makes lots of smoke.

It is better to be bored than alone. A gardener tells us he has raised his hopes.

About the best way to make an enemy is to agree with a man when he says he looks bad.

Who remembers the old-fashioned mercenary that lived just around a corner so long?

Now is the time to begin resting up for your vacation.

Only two classes of people fall forattery—male and female.

A man will give the preacher a nickel and then tell him how much he enjoyed the sermon.

The reason some people slip is because they haven't the sand.

Only Minor Cases Occupy Attention

(Continued From Page One.)

ick Alei, a damage suit growing out of an automobile collision on Third street, was taken up this morning. Chase & Chase represent the plaintiff and A. H. Woodward the defendant.

It was Ever Thus.

The fair defendant will be acquitted, of course. "I expect so," replied the prosecuting attorney. "As soon as she mounted the witness stand and smiled at the jury, nine out of ten verdicts begin to smile with their neckties and slick down their hair."

And How About the Lady?

When they perfect that invention for seeing the man you are talking to over the telephone, the little man with the gruff voice will lose a tremendous advantage.—N. W. W. Journal.

S.S.S. keeps away Pimples

You will be compelled to admit that the results of S.S.S. are really amazing.

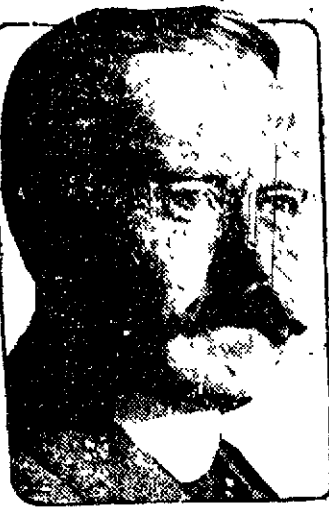

Did you ever know how big cities make the hydrant water fit for you to drink? That's what S.S.S. does to the blood in your own blood pipes. It

Imagine you a Red-Headed Calf. That's the cure for S.S.S. It builds up your blood, makes it fit to circulate. S.S.S. is acknowledged to be one of the most powerful, rapid and effective blood-purifiers known. You don't have to use any more bad treatment that is more; you work. You don't have to suppress things on your face in a vain effort to get rid of eruptions. Eruptions come from blood impurities and a lack of rich blood-cells. This is why S.S.S. roots out of your system the impurities which cause boils, pimples, blackheads, acne, blotches, eczema, itchy rash. That's why S.S.S. has done such wonderful work in freeing thousands from the scourge of rheumatism. S.S.S. is also a remarkable flesh-builder. That's why underweight people can quickly build up their lost flesh, get back their normal weight, plump cheeks, bright eyes, and a "pop." S.S.S. is sold at all good drug stores. The large size is more economical.

S.S.S. makes you feel like yourself again.

Their Fate May Be Fate Of Ruhr

RUDOLPH HARTWIG

KARL RITTER

OTTO OESTERLEN

BRUNO BRUHN

These four directors of the Krupp works have been arrested by the French and charged with the responsibility of the killing of Krupp workmen. If convicted and jailed, serious trouble will undoubtedly arise in the territory occupied by the French troops.

BOYS' PARADE WAS A GREAT SUCCESS

(Continued From Page One)

committee have a real treat in store for the boys. In addition to the radio program, which will be handled by Hobart Mowbray as operator, the following well known local entertainers will provide a highly pleasing vaudeville program of one hour and a half's duration.

Vocal Quartette—Messrs Victor Meredith, Clifford Shaw, Merle Shaw, Herbert Jury, with Miss Myra Shaw at the piano.

Electric Supply Company Orchestra consisting of Miss Lena Fullington and Messrs. Bridge, Kissinger, Flaherty, Turner and Jury.

Acrobatic Stunts—Bobbie Stephenson.

Vocalists—J. Emmott Harder, J. Paul Stauffer, ("Gallagher & Shean") Wild West Rope Jumping—Jack Jury.

Legerdemain Svengali—Fred Robinson of Curwensville.

Admission will be free to boys, no others will be admitted. Fun starts at 8 o'clock.

On Friday of Boys' Week the Clearfield Machine Shops will welcome any boy visitors who come to their new plant in Reedsville. The foundry will be casting in the afternoon.

Birthplace of Many Sailors.

The county of Devonshire in England has been the birthplace of many sailors, the most noted of whom was Sir Francis Drake. Among others was Sir Humphrey Gilbert, who took possession of the oldest of England's colonies on this side of the water—Newfoundland—in the name of Queen Elizabeth.

LAKES-TO-SEA BRIDGE BIDS WERE OPENED

Harrisburg, Pa., May 1.—Highway Commissioner Paul D. Wright today opened bids for the construction of a reinforced concrete bridge on Route 59 located in Pike township, Clearfield county. The bridge will be 141 feet long. Mason & Hanger, of Warren, submitted the lowest bid for the work, \$22,653.65. Other bids received: Whittaker & Ditch, Harrisburg, \$32,481.84; G. A. Flinn, Harrisburg, \$27,318.56; Elmer M. Love & Son, Corry, \$37,330.72; Walter H. Rae, Pottsville, \$28,845.42; Wm. Pough, Pottsville, \$28,823.00; Alexis S. Bailey, Philipsburg, \$24,998.70; Burnside Construction Co., of Burnside, \$29,384.82.

HOME ON FURLOUGH

Hobart A. Rowles, son of Mr. and Mrs. McClellan Rowles of Hannah street, arrived home Sunday last from Norfolk, Va., for the first time in four years. Young Rowles enlisted in the navy at Pittsburgh in 1919 and was attached to the repair ship with the Pacific fleet and remained in Pacific waters until February last. He graduated as a second class carpenter but will return to the Navy after a 30-day furlough.

You'll not smell like Cleopatra after a Blue Devil bath, but you will be sweeter than Cleo ever was.

ODDS AND ENDS AND THINGS

By J. D. C.

SUN GIVING US THE "COLD SHOULDER"

Government scientists, including the heads of the United States Weather Bureau have been thoroughly startled by results of examinations of the sun's world heating capacity, made by Dr. C. G. Abbot, home secretary of the National Academy of Science. According to Dr. Abbot, the sun appears to have gone on strike and is exerting its warming qualities upon the earth to an extent from three to four per cent less than fifteen months ago.

This unusual action on the part of the sun is assumed to be responsible for the present late spring, may have had its influence upon the strange winter season just passed and may presage a damagingly cold summer and an intensely severe season next winter.

Scientists see in the present situation a possible duplication of the disastrous summer of 1816 when frosts occurred during June and July, causing wholesale loss of crops and reducing food production to a minimum. Whatever may be the cause of the decision of the sun to reduce its heating effect, no one is prepared to say when the present conditions may return to normal and further increase in the cooling off process are considered possible.

Weather Bureau officials refused to commit themselves on the startling statement made by Dr. Abbot in a paper before the meeting of the Academy of Sciences just closed, saying the experiments upon which Dr. Abbot bases his conclusions are so new that it is impossible to determine their value in anticipating weather conditions for long periods in advance. All admit, however, that if the experiments should be demonstrated as correct over long periods of time, it would revolutionize methods of weather forecasts and make possible predictions many years in the future.

Dr. Abbot, who has succeeded in turning this bomb shell in the ranks of world scientists, makes no prediction as to the future, saying the experiments which have resulted in measuring the sun's heat and determining that it is three to four per cent below normal, have been in progress only twenty years and this is a short time in the history of the sun. They were commenced by the late Prof. Langley, formerly head of the Smithsonian Institution in Washington and continued by Dr. Abbot.

Lay It to Sun Spots.
This scientific iconoclast says it is impossible to predict what would happen if the low temperature of the sun continued. He points out that the world is so filled with varying conditions which effect climatic differences, such as clouds, deserts, oceans, mountains, etc., that general "coolness" next not be expected.

He merely points out that the last winter was most unusual and that the present spring is the latest on record. Some scientists have previously offered the opinion that a lowering of the

sun's heat four degrees for an indefinite period might approach a return to the glacial period. Dr. Abbot has no opinion on this subject, pointing out that changes in the heat exerted by the sun on the earth reoccurred. While Dr. Abbot offers no reason for the sun's changes in temperature, other scientists connected with the various government institutions, associate them with phenomena of sun spots, resulting from wholesale eruptions of gaseous substances from the sun's surface, extending outward at most unimaginable distances.

Call It Extraordinary.
Dr. Abbot proposes to keep the sun under observation until July, 1928, at least. The observations made by him have been taken at two points to determine how much heat the sun radiates. One of these is 5,800 feet above sea level on the top of Mount Harqua, Ariz., and the other at an altitude of approximately 9,500 feet on the summit of Mount Montezuma, Chili. At these isolated stations, free from the dirt and dust of lower parts, the scientists of the Smithsonian Institution have been able to observe the sun nearly every day and make their measurements.

While Dr. Abbot is extremely conservative about drawing conclusions from his investigations, he describes the drop in average heat from the sun of from 3 to 4 per cent as "extraordinary" and that nothing so outstanding in the way of a change in the heat of the sun had been observed since measurements were begun in 1905.

The Weather Bureau's reports, quoted by Dr. Abbot in his paper before the nation's assembled scientists, shows that 1921, the year before the decline of the sun's heat began, was the warmest on record for the past fifty years. This condition existed in Europe as well as in the United States. Last year showed a slight decline, but was still above normal, as was the early part of the past winter, but in December, three months after the sun had cooled to near the lowest point, unusual contrasts occurred. The southeastern states were the warmest and the northwestern ones the coldest for thirty years.

A Quarter Year Ahead.

In January unusual storminess prevailed and the storms followed strange courses. These conditions continued into February and the temperature began to average below normal especially in northern and northeastern sections. New England, the weather bureau reports show, has experienced one of the heaviest snowfalls for the entire winter ever known. March was generally below the normal temperature in the same region and the latter part of the month and the first days of April brought about the most severe cold wave ever known, so late in the season, in the country East of the Mississippi Valley.

The strange weather conditions have extended out to sea and the prevalence of icebergs has compelled steamships in the North Atlantic to take a course farther south than usual. The Great Lakes are still ice-locked and at the end of March these ice conditions approximated those of midwinter. It was predicted by navigators that the St. Mary's river and the Soo locks will not be open before May, or weeks after their usual opening from ice.

Neither Dr. Abbot nor Prof. Charles Marvin, chief of the

Weather Bureau, would discuss the effect of these strange solar conditions upon next winter. Dr. Abbot said he was interested in finding the facts and leaving it to the meteorologists to draw the conclusions. Prof. Marvin said his bureau was giving the findings careful examination. All acknowledge the world is facing a strange and unusual situation which probably will right itself, but which may have a startling effect upon climatic conditions during the next twelve months.

Glenwood

Makes Cooking Easy

I never knew I was such
a good cook

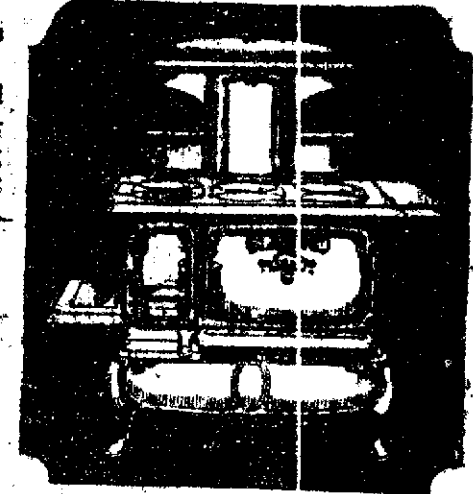

AND I'll have to give most of the credit to our new Glenwood range, it certainly has made a difference in my cooking. I'm spending less time in the kitchen, too.
"It's a relief to have a range that doesn't need to be coaxed to cook."

A Glenwood comes as near to making cooking a pleasure as any range can. It does make cooking easy, which is really more important.

The Model "C" Glenwood is illustrated here.

The Model "C" Glenwood bakes food evenly on the bottom and clear through. The balanced baking chamber and the Glenwood Patent Indirect Heat System of that—you can make a mistake.

Like every Glenwood, the Model "C" is built for a lifetime of service. It will give you a new idea of how easy it is to be a good cook.

Glenwood "C" in Pearl Gray Enamel or Standard Black Finish

Leitzinger Bros. Clearfield

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores
its Natural Color and
Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and sulphur recipe at home, though, is troublesome. An easier way to get the results is to use the preparation approved by the addition of these ingredients to a large bottle of Wyeth's Sage and Sulphur Compound, thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes luxuriant, dark, glossy, soft and luxuriant and you appear years younger.

I Don't Experiment On Your Eyes

With the aid of the latest instruments I examine your eyes. These instruments tell me to an absolute degree of accuracy the lenses your eyes need. Then I fit the proper lens and your eyes are relieved of strain.

We send our Senators and Congressmen to Washington to make laws for us and then the majority of us consider that we have discharged our entire duty as good citizens. But we haven't. It is our duty to study national and local conditions, determine in our own minds what is best for ourselves and for the nation, and then tell our Senators and Congressmen just where we stand. If the average citizen would take as much interest after election as he does before we would have less incompetents in Congress and more constructive legislation. This is too great a country to be controlled by a Congress that thinks always of itself and occasionally of the people it represents. But we cannot expect much of anything else when we send them to Washington and then content ourselves with looking after the damage has been done. No official is going contrary to the demands of a majority of his constituents, if he knows the nature of those demands. And it is difficult for an official to know what his constituents want as long as they remain human clams.—Philipsburg Journal.

Minutes Of The County Tuberculosis Society Show Much Work Done

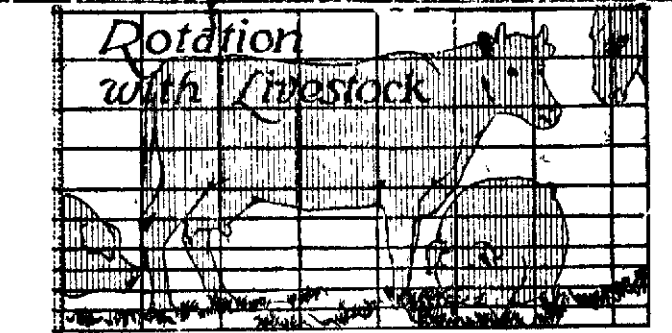

1 p. m. Luncheon. Blessing asked by Rev. Hauser.
Meeting called to order by President W. P. Trostle, who made a few remarks about the object of the Society being educational and not charitable, a thing which is not refused in cases of absolute want.
The minutes of the previous meeting had been mailed to the various districts throughout the County, as mentioned by Dr. Frantz, seconded by Mr. J. A. Breth, it was decided that the reading of the minutes be dispensed with.
Mr. Trostle then announced that Mr. Lewis of the Pennsylvania Society, who had been scheduled to speak at the meeting had failed to make connections and would not be able to be with us. He then called on the various chairmen present.
Mrs. Richard Gilbert reported on a visit made to Boardman with the State nurse or the purpose of weighing the school children at that place and to test the scales that had been furnished. The Boardman schools have had the Modern Health Crusade in two rooms during the term and have shown considerable interest in the idea. While in Boardman the moving picture house was offered for use in lodging a meeting for the parents of the school children, to explain to them the necessity of having faults, such as bad teeth, bad tonsils and enlarged adenoids attended to. It is the intent on to interest the people of that community in baby clinics, general health work, etc.
Mrs. Gilbert is also chairman of the general health work in the county and read a letter from Dr. Miner, Health Commissioner, commending work that has been done in the county. She also announced that Miss Miller of the Child Welfare Department at Harrisburg expected to visit Clearfield County in the near future to go over that division of the work.
Miss Hile Chairman at Curwens-

THE CALL OF THE WILD!

WILD CAT OIL
REPAIR ACTION

which was over three thousand. The first work was done by a committee of the Women's Club and was composed of two members, Mrs. John Martin and Mrs. Boston.
James Mitchell, Sec. Treasurer of the Society then gave a report of the receipts and expenditures of the Society since he was made Treasurer. This report shows a balance in bank of \$1,620.34.
Mrs. Wm. Batchelor of Glen Richey reported a subscription of \$271.00 toward the automobile fund. In speaking of this Mrs. Batchelor told of a playlet that had been given in Glen Richey and expressed the willingness of those taking part to give the same in Clearfield providing a place could be secured for that purpose. Proceeds to be turned over to the Automobile fund. She also told of the condition of the school in Glen Richey and how after an examination of the children had been made and cultures taken of their throats they found two diphtheria carriers attending. When these cases had been attended to the epidemic of diphtheria passed.
Miss Rosa, school nurse, told of the use of the monthly Health Hints in the Clearfield School.
Captain L. E. Watson of the Salvation Army expressed their willingness to co-operate with the Society in any way possible.
W. B. Fowle, Pittsburg, Pa., and also of the Salvation Army, wished the Society all prosperity and happiness in their good work.
Rev. Hauser talked on the willingness of the Lutheran congregation to help along the work, both individually and collectively.
The attention of the people was then called to the seals and the posters for 1923 and suggestions asked for bettering work.
Nothing further to come before the meeting, meeting adjourned.

LAW LIBRARY IMPROVED
The attorneys of Clearfield are well pleased with the changes made in the Law Library at the Court House which include repainting and the laying of a new carpet.

(National Crop Improvement Service)
NO SYSTEM of crop rotation can be devised which will succeed without a fertilizing system. The soil that is cropped year after year will be exhausted of nitrogen, phosphoric acid and potash, the three most important elements, which must be returned in some way. Rotation alone will not accomplish this.
In most cases, the rotation should consist of a grain crop, a grass crop, a cultivated crop, clover or some other legume, following each other upon every field on the farm, and each field should be strongly fenced so that the residue may be properly returned through feeding live stock.
It is poor economy to spend a year to raise a crop that must be plowed under. Such a practice may be profitable as compared with no treatment at all, if badly needed, but usually it pays better to feed the crops, either to live stock raised on the farm, or bought as feeders and fed for good gains.
When a crop is pastured off in the field all of the roots and considerable of the tops are left where they grow and 40 to 50 per cent that is eaten is returned directly to the land. It is wise to feed as large a proportion as possible, of the feeds grown.
Undoubtedly, it is more profitable to include live stock in the rotation. On such farms the roughage grown can always be put to good use by marketing it through the live stock, and they also provide an outlet for all inferior and surplus grain.
Hogging off corn is good for the hogs, good for the land, and saves labor.

MARY S. DAVIES

MRS. PHILLIPS AND COMPANION PROVE TO BE SCRAPPERS
Tenuigaha, May 2.—The woman held here as Clara Phillips, and her woman companion succeeded in besting a photographer and jail guard in a hand fight over a camera.
The photographer had gone to the jail to take the woman's picture. This she refused to permit, but he snapped the shutter anyway, and despite the presence of the guard the woman hurled herself upon him in an effort to destroy the plate. Her companion, Mrs. R. M. Young came to her assistance and together they subdued the photographer and the guard.
California detectives were expected to arrive here tonight or tomorrow morning and until they arrive the Chief of Police has forbidden the prisoners to receive any guests.

Bishop Rhinelander To Remain On Duty Until September, Although Ill
Philadelphia, Pa., May 2.—Bishop Philip Rhinelander, Head of the Protestant Episcopal Diocese of Pennsylvania, who announced his resignation, will continue to administer the affairs of his charge until September it was learned.
The Bishop has heart trouble. The precarious state of his health controlled him to relinquish his duties. The Bishop had been given a leave of absence and upon his return to the Diocese was advised by his physicians that he should not resume his executive burdens.

Prospective Home Owners, Your Judgement, Please!
A house, today, without a furnace, is like an automobile without a starter—unmodern, inconvenient. By installing a Genuine Round Oak Pipeless Heating System you not only get added comfort and convenience but add more to the renting or selling value of your home than the amount invested.
Easy Terms
In 24 hours—regardless of how your home is now heated—you can have an abundance of pleasantly moist warmth, circulating throughout every room, opening up your entire house for the enjoyment and use of your family during the coldest weather. And it will require no more fuel than you now burn—we believe less. Do you not owe it to your family to provide them this comfort—when it is to be had, right now, at the lowest possible price.

ROUND OAK HEATING SYSTEM

SCHOOLS USE OUR MILK ON UNDERWEIGHT SCHOLARS

There is a real reason why the local board of education selected only milk for use in the work of bringing the scholars that are underweight up to the proper weight.
There is everything in it that should be in a perfect milk, plus the added safety of the pasteurization process. The milk is brought here from farms where the cows are fed for the production of high grade milk, and then we put this same milk through the pasteurization process.
Every pupil in the schools who has been using our milk has shown an increase in weight since starting to drink his or her pint of milk a day.

Singing Makes The Bad Boy Good

Chicago, May 1 (United Press)—First group together. They yelled for Music, will make good boys out of bad ones, transform emulous bandits into gentlemen and revolutionize the mental makeup of the nation's youth, Miss Martha Scott, Hull house settlement worker, declared to the United Press.

Miss Scott, who has demonstrated her theory on about 800 boys, advises "kids who feel the urge of devilment to sing before joining a rough gang or drawing a pocketknife on an enemy juvenile."

Her "singing classes" include about 125 boys a week. These are one of the most potential factors in tenement districts, she says, that come from the world for moulding character. "Jazz is not so good. Jazz inspires home and wander into lawlessness, where youthful gangs meet with a grudge against the world in general. "When I started the boys in singing, I was not a high pitch 'Salome' depressed mental makeup", Miss Scott said. "I for hours. No wonder Mary Garden didn't start the off with ballads, of course I asked them what they wanted to sing when I gathered the voice will be good!"

PREDICTS WORLD'S GREATEST OIL FIELD IN SOUTHERN ALBERTA

That Southern Alberta, directly across the boundary line from Montana, where new oil wells are being brought in practically daily is destined to be the world's greatest oil field is the prediction of P. Chester Thompson, well known geologist, for many years associated with Standard Oil activities in Europe and South America.

Mr. Thompson is credited with the discovery of the oil fields in Venezuela, in Colombia, South America, in Madagascar, and has investigated practically every prospective oil field in all parts of the world.

"Geologists have long known," declares Mr. Thompson, "that oil seeps through porous rock structure in a direction opposite to the rotation of the earth. Practically all the great oil fields of the world will be found extending in direction along lines parallel with the earth's movement. Where the porous rock structure folds and is at the same time near the surface, drilling for oil becomes a commercial possibility."

"The numerous gas wells in Alberta west and south of Calgary have long evidenced the fact that oil in large quantities was somewhere beneath the surface. The large oil field, however, is located over the Alberta plateau and reaches the world's surface in the north. Gradually the world's oil reserves have been worked out and from Wyoming through Montana, and looking back to the structure in which the oil is trapped, it is evident that the oil is being brought in from Montana and present drilling in Southern Alberta lead geologists who have examined the field to the conclusion that this territory will provide one of the largest if not the largest oil field ever discovered."

To provide for the oil already being produced, and in anticipation of this development, the Imperial Oil Company of Canada is already building a number of large storage tanks and refineries at Calgary.

Saved in Crash of Seaplane

The F-5-L, former army bomber converted into a seaplane, was forced to land on Coney Island, New York, in the night. Robert Dewey, a relative of the famous admiral, was pilot of the plane. He swam a half mile to shore for aid. Here are shown the plane and four of the survivors (left to right) Eugene Rhodes, Mrs. Muriel Boggs, of Detroit, only woman passenger, Dewey and Joseph B. Lueda.

Clearfield, Pa.

Like Fishing for Doodle Bugs

Kids in the country stick a plantain stem down a hole in the ground to catch the doodle bug. This New York youngster grasps a weight, ties it to a string and pulls up coins dropped in the subway gratings by passengers. Sometimes he "catches" 50 cents a day.

The Boy on the Farm

Efficient One Improvement Service.
There is considerable sentiment spilled about keeping the boy on the farm, which is too often merely selfishness on the part of his dad.

You cannot expect young America to labor in the footsteps of his grandfather in this day of machine. The boy will dredge with his hands when he knows that his neighbors are using power. Every boy worth keeping on the farm is already a mechanical and electrical genius as he will not succeed as a farmer.

Fortunately, nearly all farm power machines, if not "foot-proof," are so simply made and standard that any intelligent boy can take them apart, and by simple ad-

justments make the wheels go round.

How can the complaint that farm produce is too low in price be adjusted with the demand that boys stay on the farm and work for little or nothing?

Is it not because our production exceeds our methods of distribution? Can any law or co-operation maintain a high price on farm products until the balance is restored?

Is it fair to ask your boy to remain on the farm unless he can do the things he wants to do? Every live boy wants a wireless. He knows how to fix the ignition troubles of the car. He knows how to wire up a gasoline engine. He knows how to wire the barn, the milkhouse. He knows he can get more eggs if lights are put in the henhouse.

Now, the boy who is going to stay on the farm is the boy who can introduce the modern methods and have an interest in the business, and father will have to step lively or he cannot keep him there in competition with the village garage.

ST. FRANCIS PLAY A SUCCESS

A large audience enjoyed the play given by the senior class of St. Francis High School at St. Francis hall last evening. The title of the play was "Hurry, Hurry, Hurry," and the different parts were handled in a manner which brought extravagant applause from those witnessing the performance.

A capacity audience was present last night, but as the play will be given again this evening those unable to attend last night's performance will have opportunity to see the show tonight. It is really worth while attending.

Ouija Board.

The so-called ouija board has no more intelligence than any other piece of wood and the movement or action in the supposed answering of questions is controlled or imparted to it either consciously or unconsciously, in a recent or fraudulent, voluntarily or involuntarily, by the operator. It is practically the same thing under a new name as the planchette board, which had such a great run in the early days of the spiritualism craze.—Frederick.

Utilizing Our Time.

We all need recreation, but we would indeed be acting most unwisely were we to give up all our spare time to the pursuit of pleasure. An evening now and then devoted to sport with the study, or again utilizing a spare hour to the reading of a humorous story when we feel out of sorts will without a question, prove a gift-edges in payment.—Exchange.

Making Nails.

An excellent illustration of the difference between old and new methods in the ordinary common nail. For nearly the metal was cut into strips and then forged into shape with hammers and an expert tool about one minute and a half for each nail. Today they are made of steel and are lighter and stronger. Strips are cut with steam shears and fed into automatic machines. One man tends three machines, dropping a nail every second.

No Crime to Stifle Yawn.
The office boy says he has no record of any law having been enacted making it a crime to stifle a yawn. You may have in mind the case of Muehler, who, as you will recall, created a sensation in the newspapers of his time by murdering sleep.—Indianapolis Star.

Waterproofing Concrete.
To stop leakage through concrete, such as tunnel walls, clean the walls thoroughly and paint with a solution consisting of eight and three-quarter pounds of zinc sulphate dissolved in a gallon of water. The zinc sulphate will not set the lime in the cement, forming insoluble calcium sulphate and zinc hydrate, which fill up the pores in the concrete.

Her Happiness Complete.
"A year ago I was perfectly happy now I am yes. She has snatched the last of the old friends that we knew before I made my pit in Wall street."—Judge.

JUNE 15TH IS SET AS FINAL DAY FOR RUM "SEA STORES"

Washington, May 2.—June 15th was definitely decided upon today as the date limit for this bringing liquor as "Sea Stores" across the three mile limit into American territorial waters.

At a conference today this date was decided upon by Assistant Secretary of Treasury Moss and Commissioner of Internal Revenue Blair. They submitted it to Secretary of Treasury Mellon for his O. K.

FORMER WELL KNOWN RESIDENT WEDS

The following wedding announcement was received by local friends of the groom, a former resident of Clearfield.

Mr. and Mrs. John O'Connor announce the marriage of their daughter Ellen Elizabeth to Mr. John Wm. Wetter on Monday, the thirtieth of April, nineteen hundred and twenty-three, Bedford, Penna.

Habits of Grayfish.

The grayfish may be described as a fresh water fish and usually lives a purely aquatic life, rising to the riverbank, as most of the grayfish found in Australia, however, have forsaken the water and migrate far from the water, the result being to the heart of the matter is free from water, but water is always present in the chambers of the fish where the grayfish lives. They do much damage to artificial watercourses in the mining districts by robbing the tanks and dams.

BASEBALL PLAYERS

Limbering Up Now With Joint-Ease

After the game of practice Joint-Ease takes the kinks, lameness and soreness out of your throwing arm so quickly that you'll want to start all over again in a few hours.

It's great stuff—speedy and sure, and many stars are wise to it.

Just two minutes' rubbing and this great, stairless Joint-Ease soaks right in through skin and flesh right to the ligaments and tendons and bones—exactly where the soreness is.

Ask for a tube of Joint-Ease and keep limbered up, as thousands of other ball players do. Costs but a trifle at druggists.

Ah! Backache Gone Rub Lumbago Away

Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Ah! Pain is gone! Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with "St. Jacobs Oil."

Rub this soothing, penetrating oil right on your painful back, and like magic, relief comes. "St. Jacobs Oil" is a harmless backache, lumbago and sciatica remedy which never disappoints and doesn't burn the skin.

Straighten up! Quit complaining! Stop those torturous "stitches." In a moment you will forget that you ever had a weak back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from your druggist now, and get this lasting relief.

MISS OLIVE WHEELER DIES

Miss Olive Wheeler died at the home of her niece, Mrs. J. B. Helsel this morning at 8:20 following an illness of several months duration. Miss Wheeler, born in Maine, Dec. 23, 1885, came to Clearfield when a young woman and spent most of her life here. She was highly respected by all who knew her. Funeral services will be held Friday afternoon at the home of her brother C. M. Wheeler, Barclay St.

Kerosene Explosion At Scottsdale Plant Cause Of \$100,000 Fire Loss

Scottsdale, Pa., May 2.—Explosion of two barrels of kerosene resulted today in the destruction of No. 1 plant of the United States Cast Iron & Pipe Company here. Valuable patterns in the building were destroyed and the loss is estimated at \$100,000. Over 1,000 men were thrown out of work temporarily.

Giant Monoplane On A Coast To Coast Trip Started Off Today

Mitchell Field, May 2.—The giant monoplane T-2 started on its coast to coast flight from Curtiss Field today. The ship, piloted by Army Lieutenant John MacReady and Oakley Kelly, rose slowly and pointed its nose west for a flight to Rockwell Field, San Diego, California. On a previous

flight they came eastward to Fort Benjamin Harrison, Indiana from San Diego without a stop. The ship's course has been laid out straight to Dayton, Ohio, then to St. Louis and west to New Mexico.

This is the seventh of a series of advertisements by The Atlantic Refining Company on the TRUTH ABOUT GASOLINE.

Taxes and Gasoline

AS you pay an extra nickel or dime "for the State" when purchasing a filling of gasoline, you may ask, "Why is gasoline taxed?" The elementary answer is, "To raise public revenue."

A more interesting question is, "Why does the State single out gasoline as a special source of taxation?" Not to discourage its use. Not because it is considered a "luxury"—for half the gasoline consumed is used in industry and commerce.

Gasoline is taxed because it is a convenient source of revenue. It is taxed because it is so cheap, both as a motive power and a commodity, that you buy it regardless of this surcharge.

Gasoline is the only product on which a direct sales tax is levied by the State of Pennsylvania. It is taxed one cent a gallon, or at the rate of about 4% of your gasoline money. The revenue collected from you in Pennsylvania during the year 1922 amounted to \$2,883,787.79.

This one-cent State tax alone is greater than The Atlantic Refining Company's margin of profit per gallon on its products. They are sold at a profit of less than one cent a gallon.

In addition to the State sales tax, which you pay direct whenever you purchase gasoline, a portion of your gasoline money also goes into the treasury of the United States—indirectly, of course, but nevertheless figuring in the price you pay for gasoline. In ten and one-half years (from January, 1912) the Federal taxes paid by The Atlantic Refining Company amounted to some \$20,459,000.

In spite of taxes, high labor, other increased manufacturing costs and tremendous demand, gasoline is still comparatively cheaper than ever—thanks to those business incentives that always accompany competitive effort and unhampered private ownership and management.

Curwensville's Own Column

Notes were slightly mused up in relation to that teachers' meeting. It will not be held on Sunday as stated, but has been put off a few days prior to Memorial Day, May 30th.

Avish MacTavish and wife were from Hyde City yesterday signing the final papers for the Abram property recently purchased by Mr. MacTavish will be a welcome acquisition to our population.

Agile entertainment is rather in price so early in the spring. Youngsters paid \$5.00 and costs Monday night in Judge Dale's lot for trying out muscle power.

George C. Fleming went to Patton today for a few days rest from illness.

Benton Lemon, of Hollidaysburg, is several days this week in Oak City setting up some ornate monuments and sinking some holes.

Downed meeting of Borough Council on April 18th. Council members: Hess, Hile, Moore, and Edwards, and Sweeney.

Petition was presented to Council by property owners on Thompson street owning two or more of the street frontage. To pave said street with brick from the streets repaired in the 1922, said petition setting forth the property owners upon said street from line of State to entrance of Hill cemetery, would construct concrete gutters, pay for two-thirds excavation and laying bricks upon street, the borough to pay one-third furnish bricks, delivered on ground; said gutters to be constructed and said bricks laid under direction of the street committee Curwensville borough, assisted by one appointee of the property owners signing said petition. Said work to be done according to the plans and specifications to be adopted by Borough Council.

When moved that the borough council on North Thompson street according to the terms and conditions in said petition. Motion adopted.

Edwards made a motion that street committee be authorized to employ engineer to lay out said street for paving. Adopted.

C. Conway appeared and made request. First, that borough give him a line for setting a concrete curb at stone building. Second, that be granted exclusive privilege of setting a restaurant on wheels in front of building to be operated on sundays. Cranted.

Edwards moved that for season of 1923 all individuals who desire to erect stands or games on Irving grounds, pay into the park fund or as derived from such business, Sunday schools and other five per cent of income. Request of R. K. Way, per Hile, for line drain along his property on Thompson street be granted, provided that petitioner purchase the pipe, enough to excavate and lay same. Motion adopted.

Edwards, chairman of street committee, reported in favor of a retaining wall being built along Tannery opposite the Cook ice plant.

Edwards moved that the wages of the street committee.

Secretary instructed to notify Mrs. Eph Spanelli to repair or rebuild sidewalk on property North Liberty street.

Edwards moved that secretary notify Geo. L. Thompson Construction company that unless said company commences cleaning of the rubbish deposited by the said company on the streets within 24 hours, the same to be removed at said company's expense. So ordered.

Edwards moved that the wages of the street committee.

RIPPLES HEARD ALONG THE SUSQUEHANNA

SHAWVILLE
Arthur Watson of Lancaster, Pa., was visiting relatives and friends in Shawville this past week.

M. and Mrs. Wesley Lansberry of Erie, were visiting at the home of the latter's parents, Mr. and Mrs. Alfred Buck, Sunday.

Alfred Buck one of our leading farmers, is serving as a juror in the May session of court in Clearfield this week.

Merrill Kyler, our genial merchant is reconstructing the post office to conform with modern ideas, such as added space for the installation of several up-to-date features, when completed will add much to its appearance as well as convenience to all concerned.

Fire supposed to have originated by a passing fisherman or from some malicious person broke out on the land of G. B. Ling and the A. B. Shaw estate at 2 p. m. Wednesday last. A high northwest wind fanned the flames into serious proportions, devastating a large area covered with valuable young timber and threatened to burn the homes and outbuildings of some of the prominent citizens, before our local fire fighters, who up to 10 p. m. had fought with great zeal and determination owing to their insufficient numbers, finally managed to gain control of the flames. Outside aid which was requested earlier in the day did not arrive until late hour. Before the strong wind the fire continued to break out afresh and it was not until the next afternoon that it was entirely extinguished.

A citizen saw this fire start and hurried to the spot hoping to apprehend the miscreant, who luckily escaped detection. As the prosperity of a nation depends on its resources of which the forests and its products form an important part, and with the State of Pennsylvania rich in its reserves, we believe the time is near when drastic measures will be taken to curb this ruthless destruction of our forests, halting reforestation and

street employees be increased to 32 1/2 cents per hour. Carried and so ordered.

Council on motion of Sweeney adjourned to assemble the first Monday evening of May.

BOUDOIR LAMPS

We have just unpacked the finest display of Boudoir Lamps that it has been our pleasure to have for a long time. It's a wonderful display and comprises the best designs shown by the most artistic lamp makers.

There are metal bases in many finishes, wood bases in mahogany, with shades in hand decorated silk, parchment and leatherette. All have six feet of cord which will reach most light sockets.

TABLE LAMPS

In the showing of these Table Lamps we know that you have some delightful surprises in store for you. The prettiest patterns of thousands we had to select from have been brought here for you. There are a host of designs and we want you to see the display in our window.

Electric Supply Co.
123 Market Street

endangering private property especially in isolated places.

When Melvin Graham and Sherman Kephart, two young men from Egypt were returning home from Shawville in their motor cars late Saturday evening, they ran into some telephone poles, the property of the Bell Telephone Co., which on account of decay had offered little or no resistance to the prevailing wind and fell midway across the road. This together with the wires connected thereon caused considerable damage to both cars, both occupants escaping injury.

COUDLEY-FRENCHVILLE
Elmer Hugney and family motored to Clearfield last Wednesday.

The Harrington mines were idle last Tuesday and Wednesday on account of motor trouble.

R. C. Streck, N. Y. C. telegrapher, was a business caller at the County seat last Wednesday.

M. E. Picard and O. E. Harrington motored to Brookville last Wednesday.

H. E. Westfall is spending his vacation with friends in Williamsport. The social affair held here last Saturday p. m. was fairly well attended, considering the continuous downpour of rain which fell all day and evening.

Frank Kelley, of Leontes Mills, spent Sunday with friends in Coudley.

First starting on the N. Y. C. right-of-way near the mouth of Deer Creek last Tuesday afternoon proved one of the worst forest fires we have had in this region for some years. As the flames were swept by a strong northwestern wind, they soon became unmanageable to the small force of men on the scene at that time. However with assistance from all points between Bald Hill and Cataract the ravaging flames were

gotten under control, but not until they had burned over an area of about 100 acres of woodland, destroying a considerable amount of young growing timber.

We rejoice to state that G. E. Roux, who had an ankle badly fractured, while working in the mines at Bald Hill some time ago, is now able to be around again.

Nicholas Bronell and family moved to their new residence in West Clearfield during the past week, after having transferred all of their real and personal property to their son, Lloyd, who expects to go in the farming business in the near future. Mr. and Mrs. Bronell who have been lifelong members of this community, will be greatly missed by their many friends here.

KEATING

Joseph Schnars, N. Y. C. telegrapher at Birch, was visiting relatives in Westport last week.

Archie and John Thomas of Clearfield, were angling in Fields Run last Friday securing a good number of trout as the fruit of their day's labor.

Frank Burfield, Jr., of Birch Island while angling on Pine Run Saturday secured twenty nice trout.

Boyn, to Mr. and Mrs. Bryan Narehood, on Saturday last a baby boy, both baby and mother are doing fine.

J. I. McGonigal of Pottersdale, attended the Odd Fellows Convention at Jersey Shore Thursday last.

R. G. Ewan, our popular P. R. R. agent has resigned his position and is moving his personal effects to Atlantic City, N. J., where he has accepted a responsible position with the West Jersey and Seashore R. R. J. M. Irwin, of Spring Creek, Pa., is filling the position left open by Mr. Ewan until permanent appointment is made.

W. E. Lininger of Birch Island was transacting business in Karthaus and Pottersdale Friday last.

Mrs. Wm. Davis spent Friday shopping in Renova.

S. C. Stroup visited relatives in Clearfield Friday and Saturday.

Roy, the 6 year old son of R. C.

BIEBER-MILLER

Yesterday afternoon, in the Presbyterian church, Ezra Rollin Bieber and Dorothy May Miller, both of Turbottville, Penna., were married with the full ring ceremony according to the Presbyterian service, by Rev. Horace Lincoln Jacobs, in the absence of the pastor, Dr. E. C. Reeve. They were accompanied by Mr. and Mrs. Harry J. Beaver, of East End. After a short visit in Clearfield, these newlyweds will return to their home in Turbottville.

No Longer "Plain."
"You used to say that you trusted the wisdom of the plain people," "Yes," replied the courtly candidate "But so many charming women are now voting in my state that I could no longer think of referring to the people as 'plain.'"—Washington Star

Schmcke is seriously ill of pneumonia at the home of his parents, at West Keating.

OH! MY BACK!

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills relieve sluggish kidneys—relieve aching backs. Here's Clearfield proof:

"Mrs. Roy Shirey, 128 Clearfield St., says: 'I had an attack of kidney complaint that caused me to have a severe pain in the small of my back. When I got up mornings the pain was severe and I had headaches. My hands were swollen, too. After taking about four boxes of Doan's Kidney Pills the pains in my back were all gone and I haven't been troubled with my kidneys since. I think Doan's are a wonderful kidney remedy and I gladly recommend them.'"

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shirey had. Foster-McMillan Co., Buffalo, N. Y.

SCHENECTADY BOY IS STILL MISSING AFTER WIDE HUNT

Two Wireless Outfits Used Throughout the Night by Father, Who Is Wireless Official.

CLUES ARE SCARCE

Schenectady, N. Y., May 2.—Two wireless outfits were used throughout the night for news of six other Alexander, kidnaped of the chief engineer of Corporation. A victim of the kidnapping, enlisted wireless amateurs throughout the eastern North America in the search for the boy. Although his father's descriptions of the boy's pleas for assistance. One report, reaching police headquarters early today, said a child had been seen trudging along a road near Ponda, N. Y., crying bitterly, but this had not been verified nor had any trace of Verner been found since the hour when he went with a stranger Monday afternoon to "get some rabbits."

Schenectady, N. Y., May 2.—Detective Sergeant Van Deusen left Police headquarters today on a mysterious mission to a town on the Canadian border, following a tip that a child answering the description of kidnapped Verner Alexander had been seen there. Police officials were extremely reticent and the exact destination could not be learned.

KIDNAPED

Verner Alexander, six, of Schenectady, N. Y., who was kidnaped by a man who lured him away with a white rabbit. His father, E. F. W. Alexander, chief engineer of the Radio Corporation of America, has started a nation-wide search for the boy through the agency of the wireless.

Canada Hangs First Woman Murderess In Twenty Four Years

Fort Saskatchewan, May 2.—Florence Lussandra was hanged today for the murder of a policeman. The first woman to be thus executed in Canada in 24 years, Mrs. Lussandra met death on the scaffold half an hour after Arthur Pearson was hanged for his part in the same murder. The man and woman were convicted of killing Constable Lawson at Cross West Pass, Alberta. Before the trap was sprung Mrs. Lussandra confessed she fired the first of the shots which killed Lawson.

BEINARD GILL MADE POLICE HEAD AT COALPORT

Bernard F. Gill, who served as assistant policeman or night officer at Philadelphia for a long time and who had a month or more ago, has been elected chief of police of Coalport borough, and expects to assume his new duties within the week.

THE STATE POLICE OF NEW JERSEY NEEDED TO PROTECT PILLAR OF FIRE MEMBERS

Boundbrook, N. J., May 2.—State Troopers early today rescued one hundred members of the Pillar of Fire from a mob of thousands which surrounded the order's church at the breaking up of a mass meeting. Alleged Klan activities and remarks by a speaker at the meeting favoring the KuKlux Klan precipitated the outbreak. Two members of the Pillar of Fire were taken prisoners by Boundbrook citizens following a free-for-all fight in the church, after which a large crowd surrounded and stoned the building and destroyed automobiles belonging to the order. The prisoners were taken to the local jail.

15 MILLION DOLLARS FOR ELECTRIFYING OF VIRGINIA RAILROAD

Pittsburgh, Pa., May 2, 1923.—The importance of the \$15,000,000 order received by the Westinghouse Electric & Manufacturing Company of Pittsburgh from the Virginian Railway for electrification of 215 miles of track between Roanoke, Va., and Mullins, W. Va., cannot be overestimated. It is the largest railroad electrification contract ever placed. In addition to what this means in itself in business, it has vast significance as assuring other contracts in the growing demand for the electrification of railroads. It is impressive, with the Virginian Railway calling for power to move heavier and heavier trains, that steam haulage is giving way to electric. While an order of this magnitude will have far-reaching effect in the promotion and maintenance of prosperity, its benefits will be felt particularly in the Pittsburgh district where the electric locomotives and the great power-producing machinery will be constructed. Not only will it mean an impetus to prosperity here, now, but it will have a stabilizing effect on business, spreading as it will over nearly two years.

BELL COMPANY WILL SELL ITS STOCK AT ALL LOCAL OFFICES

Bell Telephone System stock may be purchased at any business office of the Company, according to an announcement by local Manager Peck today. Purchases may be made for cash or on the installment plan. This plan is put in effect through the Bell Telephone Securities Co., a part of the Bell System. When an order is placed at the local office, the stock is purchased on the New York stock exchange by the Securities Company. The price quoted each day is the previous day's closing on the Exchange. During the past year efforts have been made to widen the distribution of Bell System stock through local banks and brokers. The new plan is supplementary to the previous efforts and places the stock within the reach of many who may desire to purchase it, but who have no local connections through which the purchase may be financed. The Securities Company is not financing this plan on a profit making basis, but is carrying out the ideal of the Bell System "Every Subscriber a Stockholder."

The Administration Code Is Finally Reported Out Of Committee

Harrisburg, Pa., May 2.—The Administration Code, with the amendments made by the Finance Committee, was reported out by Senator Baldwin, Chairman of the Committee, when the Senate met today. The Senate passed unanimously Senator Mansfield's bill for a Daylight Savings referendum so as to determine the question of summertime for the entire state according to the wishes of the people. Resolution of Senator are to obtain information on registration of motor vehicle licenses by counties passed with one negative vote.

BETTS BILL WOULD OUTLAW PUTTING ICE IN DRINKS

Harrisburg, May 1.—Pink lemonade of the circus brand, laded out of huge tubs with a hunk of ice in the middle, is doomed under the Betts Senate bill, which leading state bottlers advocated at a hearing before the Senate health and sanitation committee. Under the provisions of the bill, ice cannot be put in soft drinks sold from bulk to keep them cool and vendors selling pink lemonade or other soft beverages containing artificial coloring matter must say so on a conspicuous label. James Foust, state food commissioner, said it was the first time in his knowledge an industry had come asking the state to regulate manufacturing of its products. The bill provided all bottled soft drinks must be labeled as to contents and provides stringent regulations for re-cleaning beverage containers.

Committee Favorably Reports Three Million For The State College

Harrisburg, Pa., May 2.—The House Appropriations Committee today reported out an Appropriation Bill, granting State aid to the Universities of the State. State College was given \$2,993,914; University of Pittsburgh \$2,000,000; University of Pennsylvania \$1,641,812; and Temple University \$500,000. The first three of these were the amounts recommended by the State Council of Education and were considerably higher than budget figures. The Committee also reported out \$755,900 for mother's assistance fund.

HOUSE NOW HAS GAS TAX ONLY BEFORE IT FOR PASSAGE

Harrisburg, Pa., May 2.—The question of new taxation was thrust back today to the same position it had held weeks ago. The only tax bill still on the House calendar was the one imposing an additional cent on gasoline, which had yet to be called for second reading. All other taxes were re-committed to the ways and means committee for further consideration, amendment and possibly hearings. The increase in the motor vehicle license fee, which aroused a storm of protest from motorists, was to be the subject of a hearing today.

REMAINS CAN BE VIEWED AT CHURCH FROM 12 TO 2

The funeral of the late Grandma Boyce will be held at the West Side Methodist church tomorrow afternoon at two o'clock. The body will be removed to the church at twelve o'clock noon where friends of the deceased are invited to pay their last respects.

A. Kranitz, of DuBois; Calvin Amon, of Shawville; G. M. Passmore, Grampian; Ralph Hess, of Curwensville; J. A. Dutra of Ladose; and Mr. and Mrs. J. M. McKinley, of Curwensville, were among the out-of-town visitors yesterday.

\$250,000 FUND FOR ENFORCEMENT PUT BACK INTO BILL

Agreement Made With Governor that Quarter Million Is to Be Used Helping Prosecutors.

VOTE WAS 30 TO 15

Harrisburg, Pa., May 2.—The House appropriations committee today restored to the general appropriation bill the \$250,000 for law enforcement demanded by Governor Pinchot by a committee vote of 30 to 15. The acquiescence to the Governor's desire was preceded, however, by a further compromise reached by the Governor and the sub-committee early today by which Pinchot agreed that the money would be used "in cooperation with the district attorneys of several counties." This amendment, in addition to the one granted to the Governor last night, was inserted and the item restored to the bill. Harmony was believed secured by this moving out of the last series of differences between the House and the administration on the general appropriation bill and the measure was expected to pass the House without further ado.

INDUSTRIAL GROUP WILL SUPPORT ARMY, COUNTY ORGANIZED

That the coal miners of the county are solidly going to back the Salvation Army is already proven. Yesterday the officers of the Army were visiting the mines and found not only the officials but the miners were arranging to individually contribute their share in order that this organization shall have their building. The workers in the brick yards and tile plants are also enthusiastically lining up to contribute and in one plant it was estimated probably 400 workers will do their mite that this appeal shall be a success. The silk mills employees are being enthused and also the big printing plant operated by the Chas. T. Kurtz corporation. The employees of the Elk Tanning Company also are arranging for a 100% subscription. Senator W. I. Betts, the chairman for the county organization of the Salvation Army Appeal announces the chairmen for the following communities, all of whom have accepted their quotas and consented to furnish leadership in their respective townships. Glen Richey, Mrs. W. O. Batchelor; Olanza, Mr. H. A. Cathert. Oshanter, Mr. and Mrs. George L. Ammerman. Mineral Springs and Woodland, Mrs. J. J. Learish. The County Committee are out endeavoring to cover all parts of the county seeking for chairmen to cooperate in obtaining the quotas set by the Advisory Boards for them to obtain.

Pittsburgh Carmen Vote 2,177 To Nine Against Taking 10 P. C. Increase

Pittsburgh, Pa., May 2.—Employees of the Pittsburgh Railways Company today wholeheartedly rejected by a vote of 2,177 to 9 a 10 per cent increase offered by the receivers. The men demanded 20 cents an hour raise. The old wage scale expired midnight Monday and every effort will be made, it was said by representatives of the Trade Union and the receivers to prevent a strike.

Paris, May 2.—The German offer, announced officially today, is unacceptable to France, according to first impressions gathered from semi-official sources.

The amount, thirty million gold marks, the clause regarding the evacuation of the Ruhr and proposal for an International Commission, as suggested by Secretary of State Hughes, could be empowered to determine how much Germany is capable of paying. Dr. Storke arrived Sunday noon at the home of Mr. and Mrs. Albert Clark with an 8 lb. daughter. Mother and daughter are getting along fine.

DOMESTIC SNARL AGAIN SERVES TO FOCUS ATTENTION ON DISAPPEARANCE OF CALDWELL BOY APRIL EIGHTH, 1917

On Tuesday afternoon April 8, 1917, Arthur, the little 9-year-old son of Mr. and Mrs. Chester Caldwell, who live on a farm near Rockton, was sent into the nearby woods by his father in search of the cows as a severe storm was approaching, and despite the fact that almost every foot of ground for miles around the place where he was last seen has been carefully and systematically searched, no trace of the unfortunate lad has ever been found. The Caldwell, parents of the lad, came to public notice again last week when Mrs. Caldwell, with a child in her arms, appeared at the County Commissioners' office and asked to be protected and taken care of as the abuse of her husband had driven her from her home and she was forced to come to the county authorities for assistance. The woman was sent to the County Home and remained there over Sunday, being induced on Monday last to return to her children at the farm home. Mrs. Caldwell, according to information given by county officials, in possession of the facts, says her husband was extremely cruel to her and beat her with a club almost daily. That he posted trespass notices at the head of the lanes leading to the home forbidding anybody to approach and then treated her like a fiend incarnate. In defense of his actions or his alleged actions Caldwell is said to claim that his wife is demented, and the prepossessing little woman gave evidence of an impaired mentality as she rocked back and forth and crooned to her baby in the commissioners' office while reciting her tale of abuse at the hands of her strapping big 200 pound husband. The woman's story, the truth of which was mutually testified to by her condition, excited the pity of all who heard it and readily enlisted the sympathies of the county officials who heard it. Mrs. Caldwell also charges that her husband is of unsound mind and has become worse every year since the disappearance of their son. At the time of the disappearance there were many rumors as to account for same and inasmuch as the most careful search revealed no trace of the lad, many persons in the neighborhood, familiar with all the circumstances and the lay of the land in the vicinity of the place where the little lad disappeared, were never satisfied with the theories advanced and the excuses generally given and have since continued to be of the opinion that the matter would some day be cleared up satisfactorily. To this end several people in the Rockton country have never ceased to visit the locality of the boy's disappearance when conditions were right for a search and have carefully gone over the ground again and again. It is said that the efforts of some of these people have resulted in the discovery of what apparently was a small grave. The "grave" or hole in the ground was just long enough to accommodate a body the size the child's would have been at that time and was about three feet deep, while the ground in same was loose as though it had been removed and refilled after first being filled in, and it is the thought of those making the find that the body of the child might have occupied the grave at one time and had since been removed. At any rate the recent outbreak in the Caldwell family has served to renew the interest in the little boy's disappearance six years ago and a careful search of the vicinity is again being officially made, with the hope of finding some clue that would help to finally solve the affair. To refresh the memory of our readers we publish the following story of the strange affair as it appeared in the DuBois Courier at the time: "The young lad disappeared on Tuesday, April 8th, about three o'clock in the afternoon. He had been sent by his father to get the cows, as a storm was threatening. The boy went into the woods that were nearby and that was the last seen of him. When darkness came and the boy did not return, the father started out in search of him. He failed to find any trace, and immediately organized a searching party. The searchers put in the entire night going through the adjacent woods but they were equally unsuccessful. Word was then sent to this city for help. The fire whistle was blown and a special train made up on the B. & P. by which hundreds of searchers were taken to the scene. The entire day was devoted to the search by a large squad of men from this city, but no trace of the lad was discovered. Gradually the news got over the neighborhood and for one solid week hundreds of men were out every day in the search for the missing boy. On the Sunday following the disappearance searching parties started from Penfield, from Clearfield and from Curwensville, while hundreds went from DuBois. Every available foot of mountainous land was gone over thickets were beaten through, creeks searched and piles of rocks explored, but not a single clue was ever found that would lead to the recovery of the body of the boy, who by this time was given up as dead. But even then the search was not given up. The water was out to Rockton a week after the lad disappeared and he found a group of men out, including the father of the boy and his uncle. The search for the body was continued during the following summer months, but no trace was ever found. It was believed that perhaps when the deer season opened the following fall that a hunter would run across the remains, but this belief also proved without foundation. As a result the search for the boy was given up, and it was named down as one of the most mysterious occurrences that ever happened in this neighborhood."

Germany Makes Her First Actual Offer Of Peace To Allies

Berlin, May 2.—Germany made her first actual offer for solution of the Ruhr difficulties in a note to be dispatched to the Allies today. Under her proposal, announced officially here, Germany would pay a base sum of thirty billion gold marks reparation due the Allies under the Treaty of Versailles. If France accepts, Germany would expect evacuation of the Ruhr following a resumption of the previous system of payment. The German note, a copy of which also will be dispatched to Washington, agrees if this proposal is unacceptable an International Commission, such as suggested by Secretary of State Hughes, could be empowered to determine how much Germany is capable of paying. Paris, May 2.—The German offer, announced officially today, is unacceptable to France, according to first impressions gathered from semi-official sources. The amount, thirty million gold marks, the clause regarding the evacuation of the Ruhr and proposal for an International Commission, as suggested by Secretary of State Hughes, could be empowered to determine how much Germany is capable of paying. The case of Earl Gulich vs. Dorsey (Continued On Page Two)

BOYS' PARADE WAS A GREAT SUCCESS HERE LAST NIGHT

Today Is the Day for the Boy In the Home; Tomorrow Night He'll Enjoy Big Show.

BOYS ARE PLEASED

The local boys' week program is far has convinced Clearfield that they are not only a vital part of our community, but that our people generally take a great interest in their welfare, even though it remained for the Rotary Club to bring that fact home to them in no mistaken manner. The response to the Rotary Club's invitation to parade and thus demonstrate to all just how many red-blooded young Americans are to be found in our community was most generous and highly pleasing, as more than six hundred boys met at their different schools at 7 o'clock and then marched to the general rendezvous at the High School building where the parade was formed under the practiced eye of Reuben Newlin, former Field Marshal of Gulltownship, who was Grand Marshal, while A. M. Pearce and M. M. Orsini acted as chief aids, with almost the entire Club membership assisting on the side. By a little "inside strategy" the line of parade was changed at the last minute to avoid possible mishap at the Salvation Army barracks, the happy-go-lucky throng wound up Front to Walnut, across to Second, down Second to Reed, thence to Third, up Third to Market and back to the starting point. The American Legion Band led the parade and every street was filled with people almost the entire route of the parade. Following the banding of the marchers the boys gave very fine concerts at the school house and later in front of the Clearfield Trust building. The lads were tickled to death with "their show" while the Rotarians were also highly pleased with the turnout and occasion.

The Program For Tonight

The program for tonight has to do with boys' day in the home. All parents are urged to provide some program at home for the boys, and if you do not have a boy of your own adopt one for the occasion. There should not be a homeless boy in Clearfield who does not enjoy the pleasure of a comfortable home for at least the coming of May 2nd. Big Time Thursday Evening

Thursday night will be the "big night" of the week. The program calls for a vaudeville and radio program at the High School auditorium for the boys. Every boy in Clearfield is invited to be present and nobody but boys will be allowed in the auditorium. Chairman Lex Browne and his (Continued On Page Two)

Rotary Committees For The Ensuing Year Will Be Announced Tomorrow

ROTARY.—A feature of the Rotary Club meeting for tonight is an evening that can come only once a year will be the naming of the eleven standing committees for the coming year. The places are all filled and an announcement of the men and the work they will do this year will be made by President G. Albert Stewart as soon as the meeting is convened. Guests of the club tomorrow evening will be the entertainers who have so kindly consented to lend their talent in the entertainment to be given the boys at the High School at eight o'clock. Two men well versed on local affairs in Clearfield county will be present to give five minute talks. One will speak on the present and the other on the future. At 5:30 o'clock the new board of directors will meet to transact new business for presentation to the club. The regular meeting will be promptly at 7:15 o'clock.

Tom Sims SAYS---

Lots of people think the world owes them two or three livings. They're clothes being May bills. The latest boy wonder is "How big is the world?" A young lady says that crying for a man isn't half as quick as smiling for a man. The biggest fish doesn't always get away. Sometimes he goes home and says they wouldn't bite. One nice thing about radio in warm weather is you can put the radio up and go walking. The political pot is boiling. It makes lots of smoke. It is better to be bored than alone. A gardener tells us he has raised his hopes. About the best way to make an enemy is to agree with a man when he says he looks bad. Who remembers the old-fashioned mercenary that lived just around a corner so long? Now is the time to begin resting up for your vacation. Only two classes of people fall forattery—male and female. A man will give the preacher a nickel and then tell him how much he enjoyed the sermon. The reason some people slip is because they haven't the sand.

Only Minor Cases Occupy Attention

(Continued From Page One.)
 Aik Alei, a damage suit growing out of an automobile collision on Third street, was taken up this morning. Chase & Chase represent the plaintiff and A. H. Woodward the defendant.

It was Ever Thus.
 "The fair defendant will be acquitted, of course?" "I expect so," replied the prosecuting attorney. "As soon as she mounted the witness stand and smiled at the jury, nine out of ten verdicts begin to smile with their neckties and slick down their hair."

And How About the Lady?
 When they perfect that invention for seeing the man you are talking to over the telephone, the little man with the gruff voice will lose a tremendous advantage.—N. W. Winkler Journal.

S.S.S. keeps away Pimples

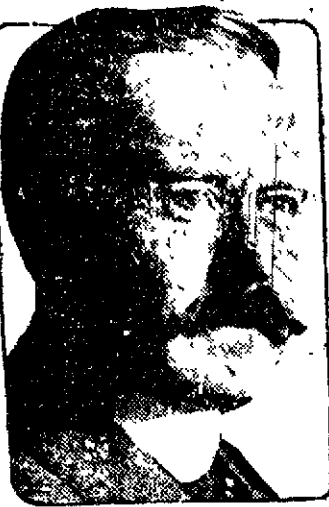

You will be compelled to admit that the results of S.S.S. are really amazing.
 Did you ever know how big cities make the hydrant water fit for you to drink? That's what S.S.S. does to the blood in your own blood pipes. It

Increases you a Red Blood Cell. That's the cure for S.S.S. It builds up your blood, makes it fit to circulate. S.S.S. is acknowledged to be one of the most powerful, rapid and effective blood-cleansing agents known. You don't have to use any more bad treatment that is more or less work. You don't have to expose your face to a vain effort to get rid of eruptions. Eruptions come from blood impurities and a lack of rich blood-cells. This is why S.S.S. roots out of your system the impurities which cause boils, pimples, blackheads, acne, blotches, eczema, itchy rash. That's why S.S.S. has done such wonderful work in freeing thousands from the scourge of rheumatism. S.S.S. is also a remarkable flesh-builder. That's why underweight people can quickly build up their lost flesh, get back their normal weight, plump cheeks, bright eyes, and a "pop." S.S.S. is sold at all good drug stores. The large size is more economical.

S.S.S. makes you feel like yourself again.

Their Fate May Be Fate Of Ruhr

RUDOLPH HARTWIG

KARL RITTER

OTTO OESTERLEN

BRUNO BRUHN

These four directors of the Krupp works have been arrested by the French and charged with the responsibility of the killing of Krupp workmen. If convicted and jailed, serious trouble will undoubtedly arise in the territory occupied by the French troops.

BOYS' PARADE WAS A GREAT SUCCESS

(Continued From Page One)

committee have a real treat in store for the boys. In addition to the radio program, which will be handled by Hobart McInerney as operator, the following well known local entertainers will provide a highly pleasing vaudeville program of one hour and a half's duration.
 Vocal Quartette—Messrs Victor Meredith, Clifford Shaw, Merle Shaw, Herbert Jury, with Miss Myra Shaw at the piano.
 Electric Supply Company Orchestra consisting of Miss Lena Fullington and Messrs. Bridge, Kissinger, Flaherty, Turner and Jury.
 Acrobatic Stunts—Bobbie Stephenson.

Vocalists—J. Emmott Harder, J. Paul Stauffer, ("Gallagher & Shean") Wild West Rope Jumping—Jack Jury.

Legerdemain Svengali—Fred Robinson of Curwensville.

Admission will be free to boys, no others will be admitted. Fun starts at 8 o'clock.

On Friday of Boys' Week the Clearfield Machine Shops will welcome any boy visitors who come to their new plant in Reedsville. The foundry will be casting in the afternoon.

Birthplace of Many Sailors.
 The county of Devonshire in England has been the birthplace of many sailors, the most noted of whom was Sir Francis Drake. Among others was Sir Humphrey Gilbert, who took possession of the oldest of England's colonies on this side of the water—Newfoundland—in the name of Queen Elizabeth.

LAKES-TO-SEA BRIDGE BIDS WERE OPENED

Harrisburg, Pa., May 1.—Highway Commissioner Paul D. Wright today opened bids for the construction of a reinforced concrete bridge on Route 59 located in Pike township, Clearfield county. The bridge will be 141 feet long, Mason & Hanger, of Warren, submitted the lowest bid for the work, \$22,653.65. Other bids received: Whitaker & Ditch, Harrisburg, \$32,481.84; G. A. Flinn, Harrisburg, \$27,318.56; Elmer M. Love & Son, Corry, \$37,330.72; Walter H. Rae, Pottsville, \$25,845.42; Wm. Pough, Pottsville, \$28,823.00; Alexis S. Bailey, Philipburg, \$24,998.70; Burnside Construction Co., of Burnside, \$29,384.82.

HOME ON FURLOUGH

Hobart A. Rowles, son of Mr. and Mrs. McClellan Rowles of Hannah street, arrived home Sunday last from Norfolk, Va., for the first time in four years. Young Rowles enlisted in the navy at Pittsburgh in 1919 and was attached to the repair ship with the Pacific fleet and remained in Pacific waters until February last. He graduated as a second class carpenter but will return to the Navy after a 30-day furlough.

HOSPITAL TRAINING SCHOOL GRADUATION

The Graduating exercises of the Clearfield Hospital Training School for Nurses will be held at the Clearfield High School auditorium on Monday evening, May 7th 1923 at 8:15 o'clock.

Following the exercises at the High School a reception to the graduates will be given at the Nurses' Home.

SCOG—PATTERSON

The marriage of Miss Odessa Patterson of Clearfield, and Frank Scog, of Newton Falls, O., was solemnized on Monday at noon by the Rev. F. C. Reeve at the Presbyterian church. The bride was attended by Miss Edith Benti and the best man was Lloyd Stone. After a wedding trip, Mr. and Mrs. Scog will reside at Newton Falls, Ohio.

100 Miles From Nowhere

In fact, I'm sure you'll be carried even farther away (in fancy, at least) when you read Zane Grey's fascinating novelette, *Tappan's Burro*, in the June issue of

THE LADIES' HOME JOURNAL

You'll fairly wither from the furnace winds of Death Valley, revel in the lonely shades of the Panamints, shudder at the mystic fog wreaths of Superstition Mountains, glory in the loyalty between Tappan and his burro—

And when you've thoroughly enjoyed this gripping story five others await you in this same issue, to say nothing of a wealth of articles: On society, prohibition, our religious life, women's clubs, the classics, the drama, and up-to-the-minute fashions.

What I've told you of this issue is really less than one-twelfth of the good things which come with a year's subscription. Good things that literally every member of your family will enjoy—at the small cost of only \$1.50. May I show you the latest copy?

SUN GIVING US THE "COLD SHOULDER"

Government scientists, including the heads of the United States Weather Bureau have been thoroughly startled by results of examinations of the sun's world heating capacity, made by Dr. C. G. Abbot, home secretary of the National Academy of Science. According to Dr. Abbot, the sun appears to have gone on strike and is exerting its warming qualities upon the earth to an extent from three to four per cent less than fifteen months ago.

This unusual action on the part of the sun is assumed to be responsible for the present late spring, may have had its influence upon the strange winter season just passed and may presage a damagingly cold summer and an intensely severe season next winter.

Scientists see in the present situation a possible duplication of the disastrous summer of 1816 when frosts occurred during June and July, causing wholesale loss of crops and reducing food production to a minimum. Whatever may be the cause of the decision of the sun to reduce its heating effect, no one is prepared to say when the present conditions may return to normal and further increase in the cooling off process are considered possible.

Weather Bureau officials refused to commit themselves on the startling statement made by Dr. Abbot in a paper before the meeting of the Academy of Sciences just closed, saying the experiments upon which Dr. Abbot bases his conclusions are so new that it is impossible to determine their value in anticipating weather conditions for long periods in advance. All admit, however, that if the experiments should be demonstrated as correct over long periods of time, it would revolutionize methods of weather forecasts and make possible predictions many years in the future.

Dr. Abbot, who has succeeded in turning this bomb shell in the ranks of world scientists, makes no prediction as to the future, saying the experiments which have resulted in measuring the sun's heat and determining that it is three to four per cent below normal, have been in progress only twenty years and this is a short time in the history of the sun. They were commenced by the late Prof. Langley, formerly head of the Smithsonian Institution in Washington and continued by Dr. Abbot.

Lay It to Sun Spots.
This scientific iconoclast says it is impossible to predict what would happen if the low temperature of the sun continued. He points out that the world is so filled with varying conditions which effect climatic differences, such as clouds, deserts, oceans, mountains, etc., that general "coolness" next not be expected.

He merely points out that the last winter was most unusual and that the present spring is the latest on record. Some scientists have previously offered the opinion that a lowering of the

sun's heat four degrees for an indefinite period might approach a return to the glacial period. Dr. Abbot has no opinion on this subject, pointing out that changes in the heat exerted by the sun on the earth reoccurred. While Dr. Abbot offers no reason for the sun's changes in temperature, other scientists connected with the various government institutions, associate them with phenomena of sun spots, resulting from wholesale eruptions of gaseous substances from the sun's surface, extending outward at most unimaginable distances.

Call It Extraordinary.
Dr. Abbot proposes to keep the sun under observation until July, 1928, at least. The observations made by him have been taken at two points to determine how much heat the sun radiates. One of these is 5,800 feet above sea level on the top of Mount Harqua, Ariz., and the other at an altitude of approximately 9,500 feet on the summit of Mount Montezuma, Chili. At these isolated stations, free from the dirt and dust of lower parts, the scientists of the Smithsonian Institution have been able to observe the sun nearly every day and make their measurements.

While Dr. Abbot is extremely conservative about drawing conclusions from his investigations, he describes the drop in average heat from the sun of from 3 to 4 per cent as "extraordinary" and that nothing so outstanding in the way of a change in the heat of the sun had been observed since measurements were begun in 1905.

The Weather Bureau's reports, quoted by Dr. Abbot in his paper before the nation's assembled scientists, shows that 1921, the year before the decline of the sun's heat began, was the warmest on record for the past fifty years. This condition existed in Europe as well as in the United States. Last year showed a slight decline, but was still above normal, as was the early part of the past winter, but in December, three months after the sun had cooled to near the lowest point, unusual contrasts occurred. The southeastern states were the warmest and the northwestern ones the coldest for thirty years.

A Quarter Year Ahead.

In January unusual storminess prevailed and the storms followed strange courses. These conditions continued into February and the temperature began to average below normal especially in northern and northeastern sections. New England, the weather bureau reports show, has experienced one of the heaviest snowfalls for the entire winter ever known. March was generally below the normal temperature in the same region and the latter part of the month and the first days of April brought about the most severe cold wave ever known, so late in the season, in the country East of the Mississippi Valley.

The strange weather conditions have extended out to sea and the prevalence of icebergs has compelled steamships in the North Atlantic to take a course farther south than usual. The Great Lakes are still ice-locked and at the end of March these ice conditions approximated those of midwinter. It was predicted by navigators that the St. Mary's river and the Soo locks will not be open before May, or weeks after their usual opening from ice.

Neither Dr. Abbot nor Prof. Charles Marvin, chief of the

Weather Bureau, would discuss the effect of these strange solar conditions upon next winter. Dr. Abbot said he was interested in finding the facts and leaving it to the meteorologists to draw the conclusions. Prof. Marvin said his bureau was giving the findings careful examination. All acknowledge the world is facing a strange and unusual situation which probably will right itself, but which may have a startling effect upon climatic conditions during the next twelve months.

Glenwood

Makes Cooking Easy

I never knew I was such
a good cook

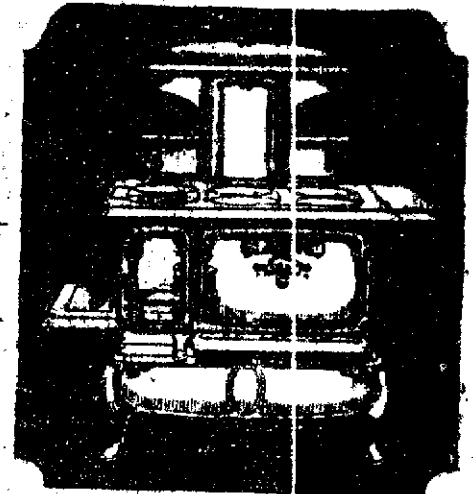

AND I'll have to give most of the credit to our new Glenwood range, it certainly has made a difference in my cooking. I'm spending less time in the kitchen, too.
"It's a relief to have a range that doesn't need to be coaxed to cook."

A Glenwood comes as near to making cooking a pleasure as any range can. It does make cooking easy, which is really more important.

The Model "C" Glenwood is illustrated here.

The Model "C" Glenwood bakes food evenly, broils, boils, and cleans through. The balanced baking chamber and the Glenwood Patent Induction Cooker are of that—you can make a mistake.

Like every Glenwood, the Model "C" is built for a lifetime of service. It will give you a new idea of how easy it is to be a good cook.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores
its Natural Color and
Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and sulphur recipe at home, though, is troublesome. An easier way to get the results is to use the preparation approved by the addition of these ingredients to a large bottle of Wyeth's Sage and Sulphur Compound, thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes luxuriant, dark, glossy, soft and luxuriant and you appear years younger.

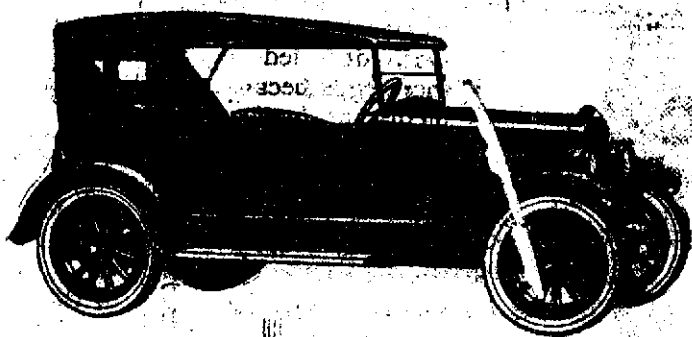

I Don't Experiment On Your Eyes

With the aid of the latest instruments I examine your eyes. These instruments tell me to an absolute degree of accuracy the lenses your eyes need. Then I fit the proper lens and your eyes are relieved of strain.

Singing Makes The Bad Boy Good

Chicago, May 1 (United Press)—First group together. They yelled for Music, will make good boys out of bad ones, transform emulous bandits into gentlemen and revolutionize the mental makeup of the nation's youth, Miss Martha Scott, Hull house settlement worker, declared to the United Press.

Miss Scott, who has demonstrated her theory on about 800 boys, advises "kids who feel the urge of devilment to sing before joining a rough gang or drawing a pocketknife on an enemy juvenile."

Her "singing classes" include about 125 boys a week. These are one of the most potential factors in tenement districts, she says, that come from the world for moulding character. "Jazz is not so good. Jazz inspires home and wander into lawlessness, where youthful gangs meet with a grudge against the world in general. "When I started, the boys in singing it seemed to change their entire mental makeup," Miss Scott said. "I for hours. No wonder Mary Garden started the night off with ballads, of course I asked them what they wanted to sing when I gathered the class."

PREDICTS WORLD'S GREATEST OIL FIELD IN SOUTHERN ALBERTA

That Southern Alberta, directly across the boundary line from Montana, where new oil wells are being brought in practically daily is destined to be the world's greatest oil field is the prediction of P. Chester Thompson, well known geologist, for many years associated with Standard Oil activities in Europe and South America.

Mr. Thompson is credited with the discovery of the oil fields in Venezuela, in Colombia, South America, in Madagascari, and has investigated practically every prospective oil field in all parts of the world.

"Geologists have long known," declares Mr. Thompson, "that oil seeps through porous rock structure in a direction opposite to the rotation of the earth. Practically all the great oil fields of the world will be found extending in direction along lines parallel with the earth's movement. Where the porous rock structure folds and is at the same time near the surface, drilling for oil becomes a commercial possibility."

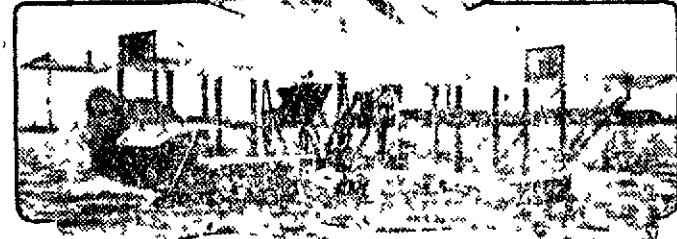

"The numerous gas wells in Alberta west and south of Calgary have long evidenced the fact that oil in large quantities was somewhere beneath the surface. The large oil field, however, is located over the Alberta plateau and red dirt, the great oil fields of the world are being brought in in Montana and present drilling in Southern Alberta lead geologists who have examined the field to the conclusion that this territory will provide one of the largest if not the largest oil field ever discovered."

To provide for the oil already being produced, and in anticipation of this development, the Imperial Oil Company of Canada is already constructing a large storage tank and refinery at Calgary.

P. CHESTER THOMPSON

Saved in Crash of Seaplane

The F-5-L, former army bomber converted into a seaplane, was forced to land on Coney Island, New York, in the night. Robert Dewey, a relative of the famous admiral, was pilot of the plane. He swam a half mile to shore for aid. Here are shown the plane and four of the survivors (left to right) Eugene Rhodes, Mrs. Muriel Boggs, of Detroit, only woman passenger, Dewey and Joseph B. Landa.

S. BLAIN HOYT, Sec.

LADIES' AID BUSINESS MEETING

Thursday, May 3rd at 3 p. m. in Trinity M. E. Church. Ice cream, cake and coffee will be served at 4 p. m. Also cake sale. 5/12/23

P. O. S. OF A. NOTICE

Washington Camp No. 591, P. O. S. of A., and the Sister Lodge will hold a social in their Camp Room Wednesday evening, May 2, at 8:30. All members and friends are cordially invited to attend. There will be an interesting program and plenty of good things to eat. So come and enjoy the fellowship of this Patriotic Fraternity. 5/12/23
Commander.

WOODSLAND OWNERS!

Are you realizing from your land all that it can produce? Close utilization and new uses of forest products and forest land have revolutionized values. Freight cost on lumber brought into the state is now double the price paid for lumber a few years ago. Scientific methods applied to forests, protection, manufacture, utilization, marketing, transportation rates and methods, timber estimating, damage appraisal, etc. will do for you what it has done for other industries. It will cost you nothing to talk this over with an organization specializing on these subjects. Give full particulars. The Forest Service Co. Sandy Ridge, Pa. 4/11/23 5/2/23

ROOMS AND MEALS DESIRED

Two furnished rooms and board, the same house or near vicinity as desired by Mrs. Thos. E. Doty of the Veterans' Bureau, by June 1. Mr. Doty will be accompanied by his wife and 17-year-old son. Communication in regard to the above may be addressed to Mr. Doty, care Pittsburgh office. 5/12/23

FOOD SALE

The W. C. T. U. will hold a food sale in the Luttman building on Saturday, May 12 at 2:30 p. m. Member please contribute. 5/2/23

Like Fishing for Doodle Bugs

Kids in the country stick a plantain stem down a hole in the ground to catch the doodle bug. This New York youngster grasps a weight, ties it to a string and pulls up coins dropped in the subway gratings by passengers. Sometimes he "catches" 50 cents a day.

The Boy on the Farm

Efficient One Improvement Service.
THERE is considerable sentiment spilled about keeping the boy on the farm, which is too often merely sentiment on the part of his dad.

You cannot expect young America to linger in the footsteps of his grandfather in this day of machine power. The boy who will drudge with his hands when he knows that his neighbors are using power. Every boy worth keeping on the farm is already a mechanical and electrical genius as he will not succeed as a farmer.

Fortunately, nearly all farm power machines, if not "foot-proof," are so simply made and standard that any intelligent boy can take them apart, and by simple ad-

justments make the wheels go round.

How can the complaint that farm produce is too low in price be adjusted with the demand that boys stay on the farm and work for little or nothing?

Is it not because our production exceeds our methods of distribution? Can any law or co-operation maintain a high price on farm products until the balance is restored?

Is it fair to ask your boy to remain on the farm unless he can do the things he wants to do? Every live boy wants a wireless. He knows how to fix the ignition troubles of the car. He knows how to wire up a gasoline engine. He knows how to wire the barn, the milkhouse. He knows he can get more eggs if lights are put in the henhouse.

Now, the boy who is going to stay on the farm is the boy who can introduce the modern methods and have an interest in the business, and father will have to step lively or he cannot keep him there in competition with the village garage.

ST. FRANCIS PLAY A SUCCESS

A large audience enjoyed the play given by the senior class of St. Francis High School at St. Francis hall last evening. The title of the play was "Hurry, Hurry, Hurry," and the different parts were handled in a manner which brought extravagant applause from those witnessing the performance.

A capacity audience was present last night, but as the play will be given again this evening those unable to attend last night's performance will have opportunity to see the show tonight. It is really worth while attending.

Ouija Board.

The so-called ouija board has no more intelligence than any other piece of wood and the movement or action in the supposed answering of questions is controlled or inspired by it of her consciously or unconsciously, in a recently or fraudulently, voluntarily or involuntarily, by the operator. It is practically the same thing under a new name as the planchette board, which had such a great run in the early days of the spiritualism craze.—Frederick.

Utilizing Our Time.

We all need recreation, but we would indeed be acting most unwisely were we to give up all our spare time to the pursuit of pleasure. An evening now and then devoted to sport with the study, or again utilizing a spare hour to the reading of a humorous story when we feel out of sorts will without a question, prove a gift-edges in payment.—Exchange.

Making Nails.

An excellent illustration of the difference between old and new methods in the ordinary common nail. For nearly the metal was cut into strips and then forged into shape with hammers and an expert tool about one minute and a half for each nail. Today they are made of steel and are lighter and stronger. Strips are cut with steam shears and fed into automatic machines. One man tends three machines, dropping a nail every second.

No Crime to Stifle Yawn.
The office boy says he has no record of any law having been enacted making it a crime to stifle a yawn. You may have in mind the case of Muehler, who, as you will recall, created a sensation in the newspapers of his time by murdering sleep.—Indianapolis Star.

Waterproofing Concrete.
To stop leakage through concrete, such as tunnel walls, clean the walls thoroughly and paint with a solution consisting of eight and three-quarter pounds of zinc sulphate dissolved in a gallon of water. The zinc sulphate will not set the lime in the cement, forming insoluble calcium sulphate and zinc hydrate, which fill up the pores in the concrete.

Her Happiness Complete.
"A year ago I was perfectly happy now I am yes. She has snatched the last of the old friends that we knew before I made my pit in Wall street."—Judge.

JUNE 15TH IS SET AS FINAL DAY FOR RUM "SEA STORES"

Washington, May 2.—June 15th was definitely decided upon today as the date limit for this bringing liquor as "Sea Stores" across the three mile limit into American territorial waters.

At a conference today this date was decided upon by Assistant Secretary of Treasury Moss and Commissioner of Internal Revenue Blair. They submitted it to Secretary of Treasury Mellon for his O. K.

FORMER WELL KNOWN RESIDENT WEDS

The following wedding announcement was received by local friends of the groom, a former resident of Clearfield.

Mr. and Mrs. John O'Connor announce the marriage of their daughter Ellen Elizabeth to Mr. John Wm. Wetter on Monday, the thirtieth of April, nineteen hundred and twenty-three, Bedford, Penna.

Habits of Grayfish.

The grayfish may be described as a fresh water fish and usually lives a purely aquatic life, rising to the riverbank, as most of the grayfish found in Australia, however, have forsaken the water and migrate far from the heart of the river to live on the banks. The reason for this is that water is always present in the chambers of the fish and where the grayfish lives. They do much damage to artificial watercourses in the mining districts by robbing the banks and dams.

BASEBALL PLAYERS

Limbering Up Now With Joint-Ease

After the game of practice Joint-Ease takes the kinks, lameness and soreness out of your throwing arm so quickly that you'll want to start all over again in a few hours.

It's great stuff—speedy and sure, and many stars are wise to it.

Just two minutes' rubbing and this great, stairless Joint-Ease soaks right in through skin and flesh right to the ligaments and tendons and bones—exactly where the soreness is.

Ask for a tube of Joint-Ease and keep limbered up, as thousands of other ball players do. Costs but a trifle at druggists.

Ah! Backache Gone Rub Lumbago Away

Rub Pain from back with small trial bottle of old "St. Jacobs Oil."

Ah! Pain is gone!
Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with "St. Jacobs Oil."
Rub this soothing, penetrating oil right on your painful back, and like magic, relief comes. "St. Jacobs Oil" is a harmless backache, lumbago and sciatica remedy which never disappoints and doesn't burn the skin.
Straighten up! Quit complaining! Stop those torturous "stitches." In a moment you will forget that you ever had a weak back, because it won't hurt or be stiff or lame. Don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" from your druggist now and get this lasting relief.

MISS OLIVE WHEELER DIES

Miss Olive Wheeler died at the home of her niece, Mrs. J. B. Helsel this morning at 8:20 following an illness of several months duration. Miss Wheeler, born in Maine, Dec. 23, 1885, came to Clearfield when a young woman and spent most of her life here. She was highly respected by all who knew her. Funeral services will be held Friday afternoon at the home of her brother C. M. Wheeler, Barclay St.

Kerosene Explosion At Scottsdale Plant Cause Of \$100,000 Fire Loss

Scottsdale, Pa., May 2.—Explosion of two barrels of kerosene resulted today in the destruction of No. 1 plant of the United States Cast Iron & Pipe Company here. Valuable patterns in the building were destroyed and the loss is estimated at \$100,000. Over 1,000 men were thrown out of work temporarily.

Giant Monoplane On A Coast To Coast Trip Started Off Today

Mitchell Field, May 2.—The giant monoplane T-2 started on its coast to coast flight from Curtiss Field today. The ship, piloted by Army Lieutenant John MacReady and Oakley Kelly, rose slowly and pointed its nose west for a flight to Rockwell Field, San Diego, California. On a previous

flight they came eastward to Fort Benjamin Harrison, Indiana from San Diego without a stop. The ship's course has been laid out straight to Dayton, Ohio, then to St. Louis and west to New Mexico.

This is the seventh of a series of advertisements by The Atlantic Refining Company on the TRUTH ABOUT GASOLINE.

Taxes and Gasoline

AS you pay an extra nickel or dime "for the State" when purchasing a filling of gasoline, you may ask, "Why is gasoline taxed?" The elementary answer is, "To raise public revenue."

A more interesting question is, "Why does the State single out gasoline as a special source of taxation?" Not to discourage its use. Not because it is considered a "luxury"—for half the gasoline consumed is used in industry and commerce.

Gasoline is taxed because it is a convenient source of revenue. It is taxed because it is so cheap, both as a motive power and a commodity, that you buy it regardless of this surcharge.

Gasoline is the only product on which a direct sales tax is levied by the State of Pennsylvania. It is taxed one cent a gallon, or at the rate of about 4% of your gasoline money. The revenue collected from you in Pennsylvania during the year 1922 amounted to \$2,883,787.79.

This one-cent State tax alone is greater than The Atlantic Refining Company's margin of profit per gallon on its products. They are sold at a profit of less than one cent a gallon.

In addition to the State sales tax, which you pay direct whenever you purchase gasoline, a portion of your gasoline money also goes into the treasury of the United States—indirectly, of course, but nevertheless figuring in the price you pay for gasoline. In ten and one-half years (from January, 1912) the Federal taxes paid by The Atlantic Refining Company amounted to some \$20,459,000.

In spite of taxes, high labor, other increased manufacturing costs and tremendous demand, gasoline is still comparatively cheaper than ever—thanks to those business incentives that always accompany competitive effort and unhampered private ownership and management.

Curwensville's Own Column

Notes were slightly mused up in relation to that teachers' meeting. It will not be held on Sunday, but has been put off a few days prior to Memorial Day, May 30th.

Avish MacTavish and wife were from Hyde City yesterday signing the final papers for the Abram property recently purchased by Mr. MacTavish will be a welcome acquisition to our population.

Agile entertainment is rather in vogue so early in the spring. Youngsters paid \$5.00 and costs Monday night in Judge Dale's lot for trying out muscle power.

George C. Fleming went to Patton today for a few days rest from illness.

Benton Lemon, of Hollidaysburg, is several days this week in Oak City setting up some ornate monuments and sinking some holes.

Downed meeting of Borough Council on April 18th. Council members: Hess, Hile, Moore, and Edwards, and Sweney.

Petition was presented to Council by property owners on Thompson street owning two or more of the street frontage. To pave said street with brick from the streets repaired in the 1922, said petition setting forth the property owners upon said street from line of State to entrance of Hill cemetery, would construct concrete gutters, pay for two-thirds excavation and laying bricks upon street, the borough to pay one-third furnish bricks, delivered on ground; said gutters to be constructed and said bricks laid under direction of the street committee Curwensville borough, assisted by one appointee of the property owners signing said petition. Said work to be done according to the plans and specifications to be adopted by Borough Council.

Sweney moved that the borough council on motion of Sweney adjourned to assemble the first Monday evening of May.

Sweney made a motion that street committee be authorized to employ engineer to lay out said street for paving. Adopted.

C. Conway appeared and made request. First, that borough give him a line for setting a concrete curb at stone building. Second, that be granted exclusive privilege of setting a restaurant on wheels in front of building to be operated on sundays. Granted.

Sweney moved that for season of 1923 all individuals who desire to erect stands or games on Irving grounds, pay into the park fund or as derived from such business, deducted, Sunday schools and other five per cent of income. Request of R. K. Way, per Hile, for line drain along his property on Thompson street be granted, provided that petitioner purchase the pipe, enough to excavate and lay same. Granted.

RIPPLES HEARD ALONG THE SUSQUEHANNA

SHAWVILLE
Arthur Watson of Lancaster, Pa., was visiting relatives and friends in Shawville this past week.

M. and Mrs. Wesley Lansberry of Eggleston, were visiting at the home of the latter's parents, Mr. and Mrs. Alfred Buck, Sunday.

Alfred Buck one of our leading farmers, is serving as a juror in the May session of court in Clearfield this week.

Merrill Kyler, our genial merchant is reconstructing the post office to conform with modern ideas, such as added space for the installation of several up-to-date features, when completed will add much to its appearance as well as convenience to all concerned.

Fire supposed to have originated by a passing fisherman or from some malicious person broke out on the land of G. B. Lingle and the A. B. Shaw estate at 2 p. m. Wednesday last. A high northwest wind fanned the flames into serious proportions, devastating a large area covered with valuable young timber and threatened to burn the homes and outbuildings of some of the prominent citizens, before our local fire fighters, who up to 10 p. m. had fought with great zeal and determination owing to their insufficient numbers, finally managed to gain control of the flames. Outside aid which was requested earlier in the day did not arrive until late hour. Before the strong wind the fire continued to break out afresh and it was not until the next afternoon that it was entirely extinguished.

A citizen saw this fire start and hurried to the spot hoping to apprehend the miscreant, who luckily escaped detection. As the prosperity of a nation depends on its resources of which the forests and its products form an important part, and with the State of Pennsylvania rich in its reserves, we believe the time is near when drastic measures will be taken to curb this ruthless destruction of our forests, halting reforestation and street employees be increased to 38 1/2 cents per hour. Carried and so ordered.

Council on motion of Sweney adjourned to assemble the first Monday evening of May.

BOUDOIR LAMPS

We have just unpacked the finest display of Boudoir Lamps that it has been our pleasure to have for a long time. It's a wonderful display and comprises the best designs shown by the most artistic lamp makers.

There are metal bases in many finishes, wood bases in mahogany, with shades in hand decorated silk, parchment and leatherette. All have six feet of cord which will reach most light sockets.

TABLE LAMPS

In the showing of these Table Lamps we know that you have some delightful surprises in store for you. The prettiest patterns of thousands we had to select from have been brought here for you. There are a host of designs and we want you to see the display in our window.

Electric Supply Co.
123 Market Street

endangering private property especially in isolated places.

When Melvin Graham and Sherman Kephart, two young men from Egypt were returning home from Shawville in their motor cars late Saturday evening, they ran into some telephone poles, the property of the Bell Telephone Co., which on account of decay had offered little or no resistance to the prevailing wind and fell midway across the road. This together with the wires connected thereon caused considerable damage to both cars, both occupants escaping injury.

COUDLEY-FRENCHVILLE
Elmer Hugney and family motored to Clearfield last Wednesday.

The Harrington mines were idle last Tuesday and Wednesday on account of motor trouble.

R. C. Streck, N. Y. C. telegrapher, was a business caller at the County seat last Wednesday.

M. E. Picard and O. E. Harrington motored to Brookville last Wednesday.

H. E. Westfall is spending his vacation with friends in Williamsport. The local affair held here last Saturday p. m. was fairly well attended, considering the continuous downpour of rain which fell all day and evening.

Frank Kelley, of Leontes Mills, spent Sunday with friends in Coudley.

First starting on the N. Y. C. right-of-way near the mouth of Deer Creek last Tuesday afternoon proved one of the worst forest fires we have had in this region for some years. As the flames were swept by a strong northwestern wind, they soon became unmanageable to the small force of men on the scene at that time. However with assistance from all points between Bald Hill and Cataract the ravaging flames were

gotten under control, but not until they had burned over an area of about 100 acres of woodland, destroying a considerable amount of young growing timber.

We rejoice to state that G. E. Roux, who had an ankle badly fractured, while working in the mines at Bald Hill some time ago, is now able to be around again.

Nicholas Bronell and family moved to their new residence in West Clearfield during the past week, after having transferred all of their real and personal property to their son, Lloyd, who expects to go in the farming business in the near future. Mr. and Mrs. Bronell who have been lifelong members of this community, will be greatly missed by their many friends here.

KEATING

Joseph Schnars, N. Y. C. telegrapher at Birch, was visiting relatives in Westport last week.

Archie and John Thomas of Clearfield, were angling in Fields Run last Friday securing a good number of trout as the fruit of their day's labor.

Frank Burfield, Jr., of Birch Island while angling on Pine Run Saturday secured twenty nice trout.

Boyn, to Mr. and Mrs. Bryan Narehood, on Saturday last a baby boy, both baby and mother are doing fine.

J. I. McGonigal of Pottersdale, attended the Odd Fellows Convention at Jersey Shore Thursday last.

R. G. Ewan, our popular P. R. R. agent has resigned his position and is moving his personal effects to Atlantic City, N. J., where he has accepted a responsible position with the West Jersey and Seashore R. R. J. M. Irwin, of Spring Creek, Pa., is filling the position left open by Mr. Ewan until permanent appointment is made.

W. E. Lininger of Birch Island was transacting business in Karthaus and Pottersdale Friday last.

Mrs. Wm. Davis spent Friday shopping in Renova.

S. C. Stroup visited relatives in Clearfield Friday and Saturday.

Roy, the 6 year old son of R. C.

BIEBER-MILLER

Yesterday afternoon, in the Presbyterian church, Ezra Rollin Bieber and Dorothy May Miller, both of Turbottville, Penna., were married with the full ring ceremony according to the Presbyterian service, by Rev. Horace Lincoln Jacobs, in the absence of the pastor, Dr. E. C. Reeve. They were accompanied by Mr. and Mrs. Harry J. Beaver, of East End. After a short visit in Clearfield, these newlyweds will return to their home in Turbottville.

No Longer "Plain."
"You used to say that you trusted the wisdom of the plain people," "Yes," replied the courtly candidate "But so many charming women are now voting in my state that I could no longer think of referring to the people as 'plain.'"—Washington Star

Schmcke is seriously ill of pneumonia at the home of his parents, at West Keating.

OH! MY BACK!

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills relieve sluggish kidneys—relieve aching backs. Here's Clearfield proof:

"Mrs. Roy Shirey, 128 Clearfield St., says: 'I had an attack of kidney complaint that caused me to have a severe pain in the small of my back. When I got up mornings the pain was severe and I had headaches. My hands were swollen, too. After taking about four boxes of Doan's Kidney Pills the pains in my back were all gone and I haven't been troubled with my kidneys since. I think Doan's are a wonderful kidney remedy and I gladly recommend them.'"

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shirey had. Foster-McMillan Co., Buffalo, N. Y.

THE MOST EXPENSIVE RUGS IN AMERICA

The rugs of the country's wealthiest people are cleaned on the machine illustrated above. Through the installation of this self same machine we are able to offer you precisely the same rug cleaning service that the most wealthy are able to obtain. Each rug is cleaned entirely by itself, and is given that individual attention which its perfect cleaning may suggest as necessary.

JORDAN'S

Youthful Mothers.
Some of the world's notable men have been fathers of parents who were not of age. Conversely, some of the world's notable mothers have been mothers of children who were not of age. Abraham Lincoln's mother was only twenty-five at the time of his birth. Napoleon the Great was born of parents twenty-three and twenty-two years of age, respectively. The mother of Pasteur, undoubtedly the greatest genius France has yet produced, was under thirty, as were the mothers of Herbert Spencer, Michael Faraday and John Stuart Mill.

Tests Strain.
Experiments have recently been carried out in two Scottish mills for the purpose of determining the yield and of testing the utility of straw pulp. Both shelled and out straw were tested, and a fairly satisfactory result was obtained. A yield of pulp was obtained from out straw equal to 35 per cent of the weight of bone-dry straw. There is said to be a surplus production of about 100,000 tons of straw in Scotland alone.

Origins of Military Titles.
Our modern and commander are terms borrowed and corrupted from the French. A commander, a knight, a count, a duke, or the superior of a monastery. The French have the word commandeur, the Italian comandatore. Commandant, however, meaning the officer of a fortified town's garrison, etc., comes from the medieval Latin commandatus, a commander, and commandare, to command.

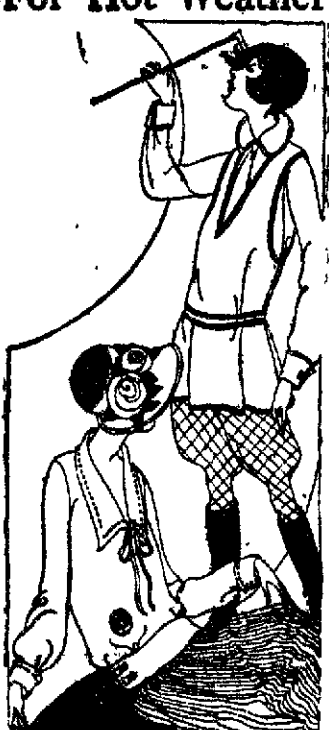

Historic Island.
Weymouth's Island is a small island in the Ohio river about two miles below Parkersburg, W. Va., which figures in history. It gets its name from having been once owned by William Weymouth, a wealthy Englishman, who built a fine residence on it. While living there he became financially involved in Aaron Burr's visionary and treacherous schemes, and they proved his ruin.

Good Advice.
The man who doesn't worry when he ought to is as bad as the one who worries when he shouldn't. Worrying is bad for the health, but probably not as bad as letting things drift. In case of a fall, run for an umbrella. Instead of saying "Don't Worry," the best advice to give a man in trouble is "Get Busy."—Thrill Magazine.

For Hot Weather

For summer sports the skirt and blouse combination is worked out in different materials and colors. The skirt, attached to a camisole top, is of pleated flannel or heavy pongee. The blouse is a variation of the tailored shirtwaist. The sleeveless jacket and knicker type is also popular.

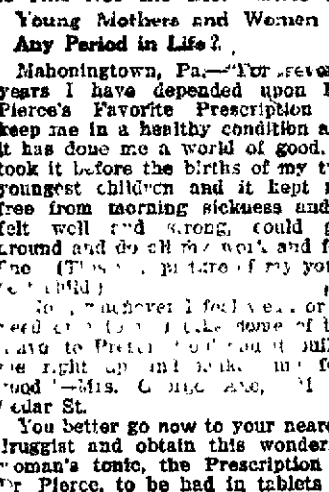

Daily Thought.
We make people merely as they are. We make them worse; when we treat them as if they were what they should be, we improve them as far as they can be improved.—Goethe.

Advice For Mothers

Is This Not the Best Advice for Young Mothers and Women at Any Period in Life?
Mahoningtown, Pa.—For several years I have depended upon Dr. Pierce's Favorite Prescription to keep me in a healthy condition and it has done me a world of good. I took it before the birth of my two youngest children and it kept me free from morning sickness and I felt well and strong, could get around and do all my work and feel fine. (This is a picture of my two children.)
I am, therefore, a free, well, or I need not say I like some of the advice to "Pierce's Favorite Prescription." I feel right up and about me. I feel good.—Mrs. C. M. Lee, 11 N. Cedar St.
You better go now to your nearest druggist and obtain this wonderful woman's tonic, the Prescription of Dr. Pierce, to be had in tablets or liquid.

Gossip For Tonight's Tea Table
Mrs. Grant Ogden of Hillsdale was called to Pittsburgh on account of the illness of her son, Lawrence.
Dr. E. C. Reeve left yesterday for Philadelphia where he will spend several days.
H. S. Moulthrop, of LeBois, is serving as a juror this week.
Mrs. R. Allan Hatch left last week for Kirkwood, Mo., where she will spend some time with her parents.
E. J. Goodyear of Winburne transacted business in town Tuesday.
M. and Mrs. M. I. Gardner, of Johnstown, former residents of Clearfield are registered at the Delmeling.
Messrs. Fred and Jim Kerr are transacting business in New York this week.
Mr. and Mrs. John J. Kelley have returned to their home in Camden, N. J., after a visit with their son and daughter in law Mr. and Mrs. Edward T. Kelley.
Squire George W. Whitmore, of Sandy township, visited the Court House yesterday.
Teddy Strong, son of Charles S. Strong, Justice of the Peace at Ansonville, has accepted a clerical position at the County National Bank.
N. B. Young, tax collector and prominent citizen of Burnside township, attended business in town yesterday.
Curwensville visitors yesterday included Miss Julia Powell, Miss Mary Wolfe, Miss Katharine Thorn, Miss Emma Robinson and Mrs. Josephine Emery.
W. D. Walker of Bigler spent Tuesday in town.
Mrs. James Kerr has returned from Washington, D. C. where she visited her son and attended the D. A. R. Convention. Mrs. Nan Fulford, Mrs. Tenner and Mr. James Kerr motored to Washington and were joined by Mrs. Kerr for the trip home.

Cut Glass More Fragile.
Cut glass probably would break more easily than uncut glass. The pattern in cut glass is cut by means of grinding wheels. Uncut glass patterns are usually molded. The angles in cut glass are better defined and sharper. The cutter also may, in some places, drive his wheel a little deeper than in other spots. Obviously, the glass at such points would be thinner and more fragile.
"Commonwealth and Coffee."
The introduction of coffee into England dates from the period of the Cromwellian Protectorate; according to a Restoration pamphlet, "Coffee and Commonwealth came together." Jacobus, a Dutch merchant, opened a house at Oxford in 1650, and later the first coffee house was established in London by Pasqua Rossetti, an servant of a Dutch merchant.
Lumber Stacker.
The machine invented for stacking lumber in high piles has been improved by the addition of a monitor nozzle, to which a hose can be connected to fight lumber-yard fires.

It pays to INSIST
Preference is the best reference. The original Ward's "Crushes" cost no more than imitations. Ward's "Crushes" give you more for your money in wholesomeness and taste. Ward's Crushes owe their distinctive and delightful flavors to the natural fruit oils of oranges, lemons and limes. To these have been added pure cane sugar, citrus fruit juices, U. S. certified food color, fruit acid and carbonated water. Everybody likes them.

Edward Bairs, District claim agent of the N. Y. C. & R. Co., of Jersey Shore, had business in town on Tuesday.
Mrs. G. B. Lyons of Grampian, spent Tuesday in Clearfield.

BOY'S STORE CLOSED ALL DAY THURSDAY
The W. M. Boyce & Son store, corner Turnpike and Nichols street, will be closed all day tomorrow (Thursday) owing to the funeral of Grandma Boyce.

STOP RHEUMATISM WITH RED PEPPER
When you are suffering with rheumatism so you can hardly get around, try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Instant relief. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes it warms the sore spot through and through. Frees the blood circulation, breaks up the congestion, and the old rheumatism torture is gone. Rowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Use it for lumbago, neuritis, backache, stiff neck, sore muscles, colds in chest. Almost instant relief awaits you. Be sure to get the genuine, with the name Rowles on each package.

THE MERRIE MONTH O' MAY
Each month has its particular jewel and for the month of May we find that the emerald is the stone that is favored. We suggest that engagement rings be made of these stones and we have some very good specimens in stock.
Graduation Presents
Not too soon to talk about the gift for the graduate and we want you to drop in now and then to see if what you had in mind isn't here. You'll find quite an array now and it will grow as the time for graduation approaches.

TRUCK INSPECTION MAKES GOOD EVERY TIME IT IS USED
Only the other day a truck was brought in here for the inspection service and we found that there was a little "check" in one of the parts which, had it gone on, would have made a serious break in the truck—would have laid up the truck for some time awaiting the arrival of the part.
The inspection service revealed the trouble, we immediately made the repair and the truck is giving real service today.

An Immense Diamond.
A big diamond has been found in a mine in Griqualand West (South Africa). The stone is amber colored, and weighs four hundred and forty carats—about a quarter of a pound. Although this is not a record as regards weight, it is the finest that has ever been found in that section of the country.

Ideal Union.
What greater thing is there for two human souls, than to feel that they are joined for life—to strengthen each other in all labor, to rest in each other in all sorrow, to minister to each other in all pain, to live with each other in silent, unspoken smiles at the moment of the parting?—George Eliot.
